JUAREZ IS VIRTUALLY EVACUATED BY CARRANZA TROOPS WHILE LARGE PART OF POPULACE HAS ALSO MOVED SOUTH

Forces Have Ostensibly Gone to Join General Trevino's Main Army at Chihuahua City—Battery of American 4.7 Field Guns at El Paso Mounted, Ready to Hurl Sixty-Pound Projectiles Against Mexican Town, in the Event of War.

REPORT FROM GENERAL PERSHING ON THE ENCOUNTER AT CARRIZAL WAS STILL LACKING LATE LAST NIGHT

It is Believed, However, That American Losses Were Twelve Killed and Seventeen Prisoners, and the Mexican Casualties Forty Killed and Thirty Wounded—News Censorship on Both Sides of the Border Drawn Tighter.

El Paso, Texas, June 22 — Juarez was practically evacuated tonight by Carranza troops The commandicia was also deserted, the wireless station was dismantled, the collector of customs and General Francisco Gonzales, commandant, had left for the interior, and only a few scattering military patrols were in evidence in the streets. In addition, a large part of the civilian population, taking their household goods with them, left during the day for the south.

Throughout the day, troops and supply trains pulled out of the Mexican Central station, bound southward, ostensibly to join General Trevino, commanding the Carranza army of the North at Chihuahua City. Several of the trains, however, were halted within a score of miles of the city, to await further orders.

Evacuation of border points by Carranzista garrisons had been general today, but in most instances the troops have been concentrated a few miles south of the boundary, awaiting further orders

Pershing's Report Expected.

The border tonight was marking time awaiting the announcement from Washington of the government's attitude after General Pershing's report on the engagement is received. Stress is laid on the fact that from the time first ragged Mexicans rode into Villa Ahumada yesterady bearing the news of the Carrizal engagement until early tonight all information has come from Mexican sources.

Military autborities, however, clung to the belief that some time during the night General Pershing's report giving the American version of the affair would be received and would do much toward relaxing the border tension. It seemed fairly well established, however, that the Mexican official reports fixing the American losses at 12 dead and 17 prisoners and the Mexican casualties at 14 killed and 30 wounded are well founded.

The squadron of the Eleventh cavalry, which General Pershing dispatched last night to reinforce the troop of the Tenth cavalry, should have reached the vicinity of the Americans late today, but military authorities here did not believe that further clashes would result, as all reports indicate the American and Mexican commands withdrew after the action and are awaiting instructions from their respective commanders.

Garcia Expressed Satisfaction.

When told that Washington, from information available was inclined to place responsibility for the Carrizal clash on the subordinate commanders of both sides, Mexican Consul Garcia here expressed satisfaction. "That has been my view from the beginning," he said. "The fight is a detached incident that does not bear on the main question except in so far as it may inflame the two peoples."

Mr. Garcia added that this was only his personal view but it is shared by all Mexican officials in El Paso and Juarez.

While excitement was manifest everywhere along the Mexican front there were few demonstrations, the only violence being at Naco, where an American soldier was killed and three others wounded by a half breed Mexican who opened fire on them.

Across the border anti-American demonstrations resulted in the death of James Parks, a mining prospector, while A. R. Dickson, a British subject was wounded in a fight with Mexicans in the vicinity of Nacozario, Sonora.

All American troops along the border have been placed in readiness for any eventuality.

Artillery Ready for Action

In El Paso additional companies of infantry patrolled the streets throughout the night. Heavy machine gun contingents were stationed at the international bridges and a battery of 4.7 field guns mounted on a mesa, behind the city, pointed their noses toward Juarez in readiness to throw sixty pound projectiles a distance of six miles.

Military censorship was noticeable all along the border tonight, especially at Columbus, where a censorship on telephone and telegraph has been maintained since General Pershing crossed the border on March 14.

Mexican authorities at border points also tightened the news censorship today and in two towns American newspaper men were taken temporarily into custody by military authorities.

J. C. Johnson, formerly of Dallas, Texas, and now attached to the staff of a local paper, was arrested in Juarez, while W. Cannell, of Los Angeles, a press correspondent, was detained in Nogales, Sonora. Both were released on representatives from the American commanders on the border towns opposite.

Carranza Volunteers.

Consul Garcia announced that 1,000 volunteers for the Carranza army, being enrolled in Chihuahua, had been recruited from the civilian population of Juarez today, following the publication of the news of yesterday's engagement. He said drilling of these preparatory to their incorporation into the army of the north would begin immediately. The consul also issued the following statement:

"The people of El Paso need fear no surprise attacks from the Mexican side of the Rio Grande. Both civil and military population of Juarez, hace had instructions to maintain peace and quiet until war is declared."

Obregon Denies Reports.

A message from General Obregon, Mexican minister of war, containing a denial of the reports that he had issued a statement saying he was responsible for the Carrizal engagement and had ordered the Mexican force to attack the Americans, was received at the military cuartel in Juarez tonight. A dispatch asserted that the war minister knew nothing of the engagement until he read the reports last night.

TROOPERS OF TENTH CAVALRY BATTLED AGAINST BIG ODDS

Columbus, N. M., June 22. — Unofficial reports from the field tonight indicated that the American force engaged at Carrizal was Troop H, of the 10th cavalry, under Captain Charles T. Boyd, 65 strong. The same report gave the Mexican strength at 200. The reports said that the Americans only withdrew when heavy Mexican reinforcements were brought up.

MEXICAN SOLDIERS KILL AMERICAN AND ENGLISHMAN

Douglas, Ariz., June 22. — Two foreigners, one an American, were killed Tuesday in a fight between three refugees attempting to reach the United States border and 13 Mexican soldiers at Cienega Fria, eight miles east of Arizepe, Sonora, according to an official telegram received late today at Agua Prieta by General Calles.

The telegram was believed by persons here to confirm earlier reports from Nacozari and Arizpe, that James Park, 45 years old, an American, and A. R. Dickson, a British subject, had been killed.

VIRGINIA BANKERS MEET

State in Most Prosperous Condition Than For Years.

Newport News, Va., June 22.—Reports submitted today at the 23rd annual convention of the Virginia Bankers' Association showed that the state is more prosperous financially than at any time in years. The convention convened at Old Point this morning with 200 delegates i attendance. The morning session was taken up with the report of the president, C. E. Tiffany, of Warrenton.

DECLARE THE MEXICANS STARTED CARRIZAL FIGHT

San Antonia, Texas, June 22.—Stragglers from the Tenth cavalry detachment that was in the fight at Carrizal arrived at General Pershing's headquarters today and told him that the fighting began with an unprovoked attack on the Americans at conclusion of a parley with the Mexican commander. General Pershing transmitted their story to General Funston tonight, who immediately referred it to the War Department.

The men were unable to tell anything regarding the casualties or even the later phases of the engagement. They retreated during the fight, became separated from their commands, making their way back to the American lines. Two troops of the Tenth cavalry, C company, commanded by the Captain Chas. T. Boyd, and K cavalry commanded by Captain Lewis Morey, comprised the detachment that arrive dwithin a mile of Carrizal, at 7 a. m. on June 21.

TEUTONS ARE NOW ON THE OFFENSIVE

Have Seemingly Stopped, for the Time, at Least, Drive of the Russians Westward.

REPORTS ARE CONFLICTING

Both Petrograd and Berlin Claim Success at Various Points — Germans Renew Heavy Bombardment Around Verdun.

The Germans and Austrians in Volhynia are vigorously on the offensive, and seemingly have stopped, for the time being, at least, the Russian drive westward. Along the Stokhod river, west of the Styr, in the region of Sokul, and still further west around Mylsk, sanguinary engagements are in progress.

In these encounters the Russian war office says the Germans and Austrians have been repulsed, while Berlin declares that on both sides of the Turia river and southward from Sviniaukhi to Grochow the Russians have been driven farther back and that northwest of Lutsk the Russian attempts to dispute German success were without result

On the Stripa, in Galicia, the Russians have taken portions of the trenches of the Teutonic allies, near Gaivoronka, and farther south, in Bukowina, have driven their forces forward southward and captured Radautz, about thirty miles below Czernowitz, and taken more officers, men and guns.

From north of the Pripet marhes to the region of Riga, the Germans again have opened what apparently is a general offensive, heavily bombarding the Russian positions or throwing violent infantry attacks against them. While Berlin reports nothing except successful German patrol incursions, Petrograd says the Germans are violently bombarding the Ikskull bridgehead and have driven their infantry against the Russian positions around Dvinsk, near Dubalowtka, south of Krevo, and on the Oginski canal. All these attacks are declared to have failed except near Krevo, where the Germans crossed the river, but later were driven back to the west bank.

On both sides of the river Meuse, in the region of Verdun, and to the east of the fortress in the Woevre, at the foot of the Meuse hills, the Germans are heavily bombarding the French.

Especially heavy are the attacks against hill 30, and LeMort Homme, northwest of Verdun, and northeast of the fortress around Thiaumont, the Vaux wood, Chapitre and Fort Laufee. In a counter attack the French have retaken from the Germans most of the trenches the Germans captured Wednesday night between the Fumin wood and Chenois, northeast of Verdun.

The Germans near Givenchy captured British trenches, but later were driven out, suffering heavy losses in the counter attack|

Considerable aerial activity against German towns has taken place, French machines having dropped bombs on Treves, Karlsruhe and Mulheim.

In air battles, four German aero-

NOTABLE SPEAKERS PAY TRIBUTE TO Z. B. VANCE

Eulogies Made by Marshall, Craig, Overman and Others.

Statue of the "War Governor," Gift of North Carolina to the Nation, Unveiled—Mrs. Vance Present at Ceremonies.

(Special Star Telegram).

Washington, D. C., June 22.—In the presence of some of the most representative men and women of the State and Nation, the handsome bronze statue of Senator Zebulon B. Vance, North Carolina's gift to the Nation, was unveiled in Statuary Hall of the Capitol today and accepted by Vice-President Thomas Riley Marshal on behalf of the government. Eulogies of the distinguished North Carolinian were made by Judge Hoke, Clement Manley, Governor Locke Craig and Vice-President Marshall.

After the exercises in Statuary Hall were concluded, Senators Overman, Lodge and Hoke Smith delivered speeches on the life of Senator Vance. The cords were pulled by little Miss Dorothy Despey Pillow, a greatgranddaughter of Senator Vance. During the speech making the little girl sat in the lap of Vice-President Marshall and told him what a great many her distinguished grand parent was.

"This is no perfunctory service on the part of the presiding officer of the Senate," said Mr. Marshall. "It is a

"THE MAN AT THE FRONT" IN MEXICO.

General John J. Pershing, whose present headquarters are at Colonia Dublan, tells Trevino he will not take his orders.

PREPARATIONS AT THE WAR DEPARTMENT FOR POSSIBLE CONFLICT GO STEADILY ON

However, Both American and Mexican Governments Apparently Hope to Treat Carrizal Incident as Aggravating, But Not in Itself Likely to Cause General Hostilities—Letter Handed to Latin American Diplomats.

Washington, June 22.—Apparently the United States government and de facto government hope to treat the clash at Carrizal yesterday as an incident aggravating gravely strained relations, but not of itself likely to precipitate general hostilities. This fact stood out tonight. So far as the Washington administration is concerned, no final decision can be reached until President Wilson has received a report on the fight from American army officers. All information so far has come from Mexican sources.

Events moved swiftly here during the day and preparations by the War Department for possible war with the Mexican goverament went forward rapidly. At the same time there came hints that General Carranza had been almost persuaded by European influences not to persist in a cause certain to bring on a conflict.

Hope for Peaceful Outcome.

Many officials here have not abandoned hope of a peaceful outcome, although they admit that each day since the present friction began has seen new clouds gather. Their hopes against war were based solely on the reports that have reached them indirectly that the Carranza government is inclined to seek a peaceful way out.

Although they had only Mexican reports to go on, officials today did not question statements that many American cavalrymen were killed, wounded or captured. In view of the orders given American commanders in Mexico, however, they refuse to credit the charge that the commander of the detachment was the aggressor.

When General Pershing's report arrives it will be carefully studied and one of the first actions probably will be to demand the release of the Americans said to have been captured. It is not probable there will be any immediate move as a result of the incident Sunday at Mazatlan, where Mexican soldiers made an unprovoked attack on American bluejackets, according to an official report to the Navy Department today. But should General Pershing's report on the Carrizal fight show the Carranza forces to have been the aggressors there also, an opportunity to explain the two incidents would be given the de facto government before drastic steps were ordered by President Wilson. Both cases have been called to the attention of the United States by the Carranza government. Ambassador designate, Arredondo. Secretary Lansing made no reply to Mr. Arredondo as he had no advices of his own.

Circular Note to Diplomats.

While this fresh cause for apprehension was occupying officials, a circular note addressed to the South and Central American diplomats by Secretary Lansing in connection with the Mexican situation was made public at the State Department tonight. It accompanied copies of the note to General Carranza, distributed as a matter of information, and was accepted by the diplomats as the last word of the United States before proceeding with any steps which Carranza's course might make necessary.

The statement is a blunt assertion of the purposes of the United States to defend our "national peace and the safety of our citizens" even at the cost of war.

This communication was issued to the diplomats to assure them as to the policy of the United States and in an effort to keep intact the Pan-American understanding for which the Administration has labored. European diplomats will not fail to obtain copies and it is understood it is to be aimed partly at anti-American propaganda conducted abroad by Mexican agencies and other influences which are said to seek to promote hostility between the two countries.

Carranza's Charges Widely Circulated.

General Carranza took pains to see that his charges of bad faitn against the United States were widely circulated in Latin America and Europe. Secretary Lansing felt it advisable to counteract this. He would not discuss his reasons, but it is known that the State Department has received much indirect information tending to show that German influences have been busy against the interests of the United States in Mexico, Latin-America and in neutral Europe. It was suggested also that Mr. Lansing might have intended the circular note to head off possible offers of mediation.

Word that General Carranza was be-

MANY FEATURES FOR THOUSAND DELEGATES TO ROAD CONVENTION

LIEUTENANT AND CAPTAIN KILLED

Mormon Scout Employed by General Pershing Tells of the Encounter at Carrizal.

SAW 13 DEAD AMERICANS

He is Taken to Chihuahua City With Seventeen Negro Soldiers of the Tenth United States Cavalry and Interned.

Chihuahua City, Mex., June 22.—The seventeen American soldiers, negro troopers of the Tenth cavalry, who were captured in the battle at Carrizal, were brought here today with Lem H. Spillsbury, a Mormon scout, employed by General Pershing, and were interned.

Spillsbury said that Captain Charles T. Boyd commanded the Americans and with Lieutenant Henry R. Adair, was among the killed.

A Captain Moore, who was with the American detachment, was wounded in the shoulder, but escaped. In announcing this afternoon a story of the battle which he said Spillsbury told him, General Trevino, commander of the military district of the northeast, said if the American troops move other than toward the border he will comply to the letter with his superior's orders and attack them as General Felix Gomez did at Carrizal. General Trevino said that all diplomatic arrangements are outside of his sphere.

Spillsbury's story, as announced by General Trevino, was to the effect that 76 negroes, comprising troop H, of the Tenth, Captains Boyd and Moore, Lieutenant Adair and himself, composed the American detachment that encountered the Mexicans.

He said that he saw on the field the bodies of Boyd and Adair and at least 11 of the negroes.

Spillsbury's account, as given out, follows:

"We left Casas Grandes on Sunday morning, arriving outside of Carrizal early Wednesday morning.

"Captain Boyd immediately dispatched a courier to the Jefe Politico of the little village advising him that we were on our way to Villa Ahumada.

"After we had waited some time, Lieutenant Colonel Rivas came out and warned Captain Boyd that he would better turn back. Captain Boyd then explained that he was in pursuit of some bandits which he had heard had looted Santo Domingo, and also was bounder to catch a negro deserter who he had heard was in Villa Ahumada.

"In reply to this Lieutenant Rivas notified the American that if he attempted to advance he would have to pass over the dead bodies of the Mexicans. He advised Boyd that he had better not argue the matter.

"Rivas returned to the village to report to his superior officer. General Gomez, who sent out a note inviting the Americans to enter Carrizal for a conference. Captain Boyd declined.

"On this ground Gomez went out in person and insistently urged the Americans to retire, pointing out that his orders from his superiors necessitated his acting on them without further parley. General Gomez repeated these words as he walked away. Boyd merely answered 'all right.'"

General Trevino's announcement then goes on to quote Spillsbury as saying

(Continued on Page Ten.)

CHARGES AGAINST DR. ANDERSON WITHDRAWN

Prosecuting Counsel Admits Failure to Make Out Case.

Inquiry Into Central Hospital Management Comes to Abrupt Conclusion—Another Day Had Been Thought Necessary.

(Special Star Telegram.)

Raleigh, N. C., June 22.—The investigation of the management of Central Hospital for Insane terminated today with an admission by counsel for the prosecution of the charges against Superintendent Albert Anderson and the management of the institution that they have failed to make out a case.

This admission came when, at the conclusion of evidence for the defense, call was made for argument by the prosecuting counsel. They wanted time to get three more witnesses, whose testimony, it was insisted, could be only cumulative, and Chairman Aydlett would not hold the case open. They wanted Alexander Webb, chairman of the Board of Internal Improvements; Mrs. Duvall, and Mrs. Strickland, formerly connected with the institution.

Counsel for the prosecution, Douglass & Douglass and M. Ashby Lambert, admitted that they had failed to make any case and withdrew the charges, thus bringing to an abrupt close the hearing which it had been thought would require at least another day.

Made Inspection Trip Over New Hanover Good Roads in Two Hundred Automobiles.

VOICE RECITAL IS GIVEN

Important Addresses Made by Prominent Speakers on the Subject of Convict Labor.

BIG PARADE FOR TONIGHT

Splendid Programme Arranged for the Closing Day.

The thousand delegates attending the annual convention of the North Carolina Good Roads Association at Wrightsville Beach had many things to engage their attention yesterday, which was the big day of the convention, including an inspection tour over the fine New Hanover roads yesterday morning, the discussion of convict labor on highways in the State by prominent speakers at the afternoon session, and a splendid voice recital by Miss Anna Graham Harris, and addresses on the importance of improved highways and reports on what has been accomplished during the past year in the State at the evening meeting

Good Things for Today.

With hundreds of visitors here from the neighboring counties in addition to the large number of delegates from the more distant sections of the State in attendance, yesterday, making it indeed a notable gathering of good roads enthusiasts, today is expected to be no less interesting. An important feature of the morning session will be an address by Hon. E. A. Stevens, president of the American Road Builders' Association, who will speak on a question of peculiar public interest in these war times, his theme being "Good Roads and Preparedness." Another address of special interest will be by Hon. Leonard Tufts, of Pinehurst, president of the North Carolina Agricultural Society.

Mr. W. C. Boren, chairman of the Board of County Commissioners of Guilford, will preside at the morning session today, which will be called to order at 10 A. M. Federal aid will be discussed by Mr. C. A. Kenyon, director of the American Highway Association, of Indiana; Mr. J. E. Pennypacker, of the U. S. Office of Public Roads, and Mr. W. S. Fallis, State Road Engineer. Mr. O. F. Wilson, chairman of the road committee of the North Carolina Division of the Travelers' Protective Association, will speak on the importance of having sign boards.

Convention Closes Tonight.

The convention will close tonight, with a grand parade, which is expected to be one of the biggest events of its kind ever held on the beach. The delegates from all the different counties in the State have been asked to take part in this and help to stir up enthusiasm in good roads, by marching in the procession. Following the parade there will be a souvenir dance given at Lumina. The business session of the convention will be held this afternoon.

The registration of a thousand delegates to the convention with still more to come today, sets a new record for conventions here as well as for the North Carolina Good Roads Association. President H. B. Varner and Secretary Joseph Hyde Pratt, who have for years worked enthusiastically and energetically in the interest of good roads, express the greatest satisfaction at the splendid results that have been accomplished at the convention.

The big crowd of visitors have been entertained splendidly and they have nothing but words of the highest praise for the treatment they have received at the hands of the people of the city-by-the-sea. Everything has been done with promptness and dispatch without a hitch anywhere. With so many features to receive attention, this has been one of the notable things about the convention.

Grand Illuminated Parade.

All who are to take part in the illuminated parade will assemble at the Oceanic hotel before 8 o'clock tonight.

The parade will move four abreast down the board walk from the Oceanic hotel to Lumina, and the formation will be as follows:

1. Squad of police.
2. Band.
3. Mayor Moore, Mayor Wright, of Wrightsville Beach; Councilman J. M. Hall and Chief of Police N. J. Williams.
4. Veiled Prophets of the Enchanted Realm. The Prophets will be requested to be dressed as far as possible in Palm Beach suits and white slippers, a fez, and to carry a cane. Also to wear a red tie.
5. The Wilmington Light Infantry in uniform.
6. Officials of the North Carolina Good Roads Association and the Wilmington Highway Association.
7. Delegates and ladies. When any city or county has a delegation they are asked to march in the parade in a group carrying flags or banners, if

(Continued on Page Seven.)

AMERICANS FIRST WERE FIRED UPON

U. S. Gunboat Commander Blames Mexican Officers for Mazatlan Affair Sunday.

REPORTS TO WASHINGTON

Party Who Had Started to Dock For a Parley With Mexicans Attacked Without Provocation—Made No Effort to Land.

Washington, June 22.—Commander Kavanagh, of the gunboat Annapolis, in a report reaching the Navy Department today on the incident at Mazatlan Sunday when a boat from the Annapolis was fired on and two American officers seized, said his men were attacked without provocation by Mexican customs officers and soldiers.

A version of the affair, brought to the attention of the State Department Monday with a request that men from American warships attempt no further landings at Mexican ports for the present, said the crew tried to land without permission and that a shot fired by a drunken Japanese precipitated trouble.

Commander Kavanagh's report transmitted by Admiral Winslow from San Diego, told a very different story and concluded with the statement that Mazatlan was reported wild with excitement, and practically every Mexican armed. The report follows:

"Governor issued manifesto that officers were not to land and guard was placed on dock. I sent ashore Ensign Kessing to parley with Mexicans and to ask them to send for the acting American consul or for one of the Mexican officials so as to arrange for American citizens coming off to the ship. I sent Paymaster Mowat with the party as interpreter, no trouble being anticipated as Mexicans have not molested earlier boats.

"I ordered boat officer to keep clear of landing so that his boat could not be rushed, and I forbade him entering the town, the plan being that the boat was to lie well clear of the dock and the officers therein to confer with party on shore. By my orders arms were carried concealed in the boat and boat officers had positive orders to keep them hidden, and not to use them unless fired upon, in which case he was to return the fire. The boat was a motor sailing launch with crew of three men.

"Coxswain of the boat reports that after brief parley Mowat, interpreter informed Kessing that Mexican said it would be all right for them to land. They did so, and were immediately seized. Kessing ordered boat to return to ship and report what had happened. When Mexicans saw boat start off they motioned it to return. Coxswain told them to wait a minute and kept heading for the ship.

"When boat was about 100 feet clear from dock, Mexican custom official in uniform fired his revolver at the boat, bullet striking near it. Five or six shots were immediately fired at the boat by Mexican soldiers, Boatswain's Mate Laughter, who was senior in the boat ,then ordered the fire to be returned and this was done. Mexicans fled from the dock, and taking cover behind wal and in dock warhouses opened lively fire on boat, Mexicans firing in all about 150 shots. Laughter was hit twice, once in the arm and once through bowels. Coxswain Sheets had skin barked from his fingers and boat was struck many times. In my opinion boat's crew acted properly in returning fire as otherwise they all would probably have been killed.

"When a crew began to fire the Mexicans fled from the dock in a panic and this gave the boat a chance to get away. American consul came off to the ship and reported that General Mexta claimed our people began the fight and that one man had been kfled and two or three others wounded. I gave him our version of the affair and assured the general that full satisfaction would be given if the blame was ours and also in that case would express regret over the affair. I requested also that he release the two officers and send them and any American citizens who wished to come off to the Annapolis. The general allowed Kessing and Mowat to return on board at 4 p. m. Sunday, they having suffered no harm beyond threats and abuse from populace and soldiers. They were wel treated by military officials. General Mexta sent a polite reply to my letter saying that he released officers at my request and also that the men who fired on the boat were Japanese, now in the hospital wounded.

"Mowat and Kessing confirmed Coxswain's report except that they did not kno whow the fight started. Laughter rallied and made statement saying that Mexicans ordered boat back to dock and Coxswain started to obey, but Laughter took the tiller from him when first shot was fired striking him in the arm. After five or six more shots had been fired he gave orders to return the fire.

"Mazatlan reported wild with excitement and practically every Mexican armed."

SECOND REGIMENT IN CAMP SATURDAY NIGHT

Definite Schedules of Movement of Companies Issued

Ambulance Corps and Field Hospital Corps to Proceed First of Week. Camp in Perfect Readiness, Says General Young.

(Special Star Correspondence).

Raleigh, N. C., June 22.—Definite schedules for the movement of the companies of the First Regiment, North Carolina National Guard, to Camp Glenn, Morehead, were issued to the company officers and to the railroad authorities today from the office of the Adjutant General, and the work of putting the camp in thorough order is being pushed with such rapidity that General Young says all will be in readiness by the time the troops begin to arrive there Saturday evening.

Col. J. T. Gardner, commanding the First Regiment, reports all the companies of the regiment enlisted to the full required strength and most of them to within 75 per cent of the full war strength. Major H. J. Hunt, senior muster officer of the War Department, will be at Camp Glenn to formally muster in the companies as they arrive and the full war strength equipment for all the troops ordered out has been shipped to Morehead and there will be an army officer there to issue it to the companies in strict conformity with the regulations.

Arrangements are being made for the movement of the Ambulance Corps and the Field Hospital Corps on Monday or Tuesday; also, the two troops of cavalry. All these organizations are ready and anxious to move. The delays have been on account of the determination of the authorities to have the camp in the very best sort of order when the men are assembled there, and this is being definitely accomplished, the officers say.

Captain Alexander Greig, inspector-instructor, has, General Young says, given most valuable assistance in the furtherance of the plans for the mobilization, he having laid aside his regular duties for the time to help push along the mobilization preliminaries. General Young expresses great obligation to Captain Greig for this assistance. Major Hunt has been out of the State several days attending various schools of instruction as an instructor, and only returned last evening. Now he has also entered upon the work of co-operating with General Young and his assistants and is greatly assisting, especially with his expert knowledge as to these and other military matters.

NOTABLE SPEAKERS PAY TRIBUTE TO Z. B. VANCE

(Continued From Page One.)

quickened heart throb at the memory of the days agone, and a humble apology to Zebulon B. Vance for a partial failure of life's work. This is both an official and personal occasion to me."

After the exercises were concluded a buffet luncheon was served at the home of Secretary of the Navy and Mrs. Josephus Daniels. Mrs. Vance, widow of the late Senator, was among those present.

P. R. A.

GERMANS AT WORK TO BRING ON WAR

Carranza and Other Mexican Officials Given Moral Encouragement by Outsiders.

VON RINTELEN THE LEADER

Intended to Stop Munitions Shipments From United States to Allies and Delay Pressure of Submarine Controversy.

Washington, June 22.—Advices received here from Mexico allege that the German representatives there have encouraged General Carranza and the officers of the de facto government in their opposition to the United States troops remaining in that country. The form of encouragement was said to have been moral rather than material.

The reports further declare that German citizens in Mexico are being treated with great consideration, their property not being molested. Some Americans have taken advantage of the favors afforded German subjects by placing their property in the hands of German friends upon leaving Mexico.

This information was disclosed by a competent authority in connection with information concerning the activity in Mexican affairs of Capt. Franz Von Rintelen now under idictment in New York for conspiracy to foment strikes in American munitions plants, and under arrest in England.

Von Rintelen Most Active.

Von Rintelen is mentioned by government officials to have been most active in Mexican affairs. His activities began at the time Villa and Carransa was at odds and when Huerta went to the border to direct a plot to gain control of the government. Von Rintelen today was described as having been prompted by three motives in endeavoring to stir up trouble between the United States and Mexico, although primarily his activities were said to have been directed against the Entente Allies and not against the United States.

The information obtained leads officials to believe that Von Rintelen thought that by starting a dispute between the United States and Mexico, munitions shipments from America would be stopped, that the United States would be too busy to pursue the submarine controversy, and that the allied navies would be prevented from securing fuel oil and gasoline from the Mexican fields. More than sixty per cent of the oil used in the British navy comes from Mexico.

Would Have Had No Effect.

It was pointed out today that at no time would the United States have failed to press its demand in regard to the conduct of the submarine war, even if a state of war existed with Mexico. As for exportation of oil from the Mexican fields, it was said today that in the event of war between the United States and Mexico, some means will be found to prevent the plans of Von Rintelen from being realized.

The names of Frederico Stallforth, of New York, a former banker in Mexico, and Andrew C. Meloy, also of New York, are mentioned in connection with that of Von Rintelen in Mexico, was called before the Federal grand jury in New York to testify as to his activities. Von Rintelen while in this country maintained headquarters in Stallforth's office. He is understood to have denied any connection with the Mexican intrigues, but was remanded to jail over night for contempt for refusing to answer certain questions before the jury.

Meloy also was associated with Von Rintelen in Mexico. He was indicted in New York on the charge of having obtained a false passport for Von Rintelen.

Another name mentioned with Von Rintelen's was that of David Lamar, sometimes called "The Wolf of Wall Street," and indicted with him. Lamar is said here to have obtained a large sum of money from Von Rintelen to be used in promoting certain plans regarding Mexico and strikes in New York. So far as is known in Washington, Lamar performed no services commensurate with the sum of money he is said to have received.

SOUTH FRONT ST. BUSINESS MAN IS TANLAC BOOSTER

J. J. Vereen Says it Has Done More For Him Than all Other Medicines He Took During Years That He Suffered.

Now comes J. J. Vereen, well known Wilmington merchant, with more good words for Tanlac.

Mr. Vereen's place of business is at 801 South Front street. In an interesting interview several days ago, he told the Tanlac Man: "After suffering for some long time from nervousness, due to indigestion, insomnia and a general run-down, I took Tanlac upon the recommendation of friends who were helped by it.

"Before starting the Tanlac treatment I had taken purgatives for years along with other medicines that failed to offer relief.

"To date I have taken five bottles of Tanlac, and, I'm glad to say, can sleep better than for years; my appetite is again normal; and, all in all, I feel like a different man.

"Tanlac has done so much for me—more than all other medicines put together—it has increased my weight and strength considerably, and I can not recommend it too highly and I boost it to all my friends."

No other medicine has ever won the hearty commendation of Wilmington men and women — people representing all walks of life — and in so short a time as Tanlac has. Tanlac is successful, as many men and women daily tell the Tanlac Man at the Bellamy Drug Store, where it is sold exclusively in this city, because it goes right to the root of trouble, banishes congested impurities and then builds health through the blood and nerves. It is an herbal remedy and was designed especially to combat those maladies that are prevalent today.

C. L. Halstead sells the Master Medicine in Burgaw; Bradham Drug Co., New Bern; Watson's Pharmacy, Southport; G. W. Kirby, Supply; A. N. Rhodes & Co., Rocky Point; J. L. Southall, Magnolia. Each town has a Tanlac druggist.

GOING BACK TO FONTENOY

Paris Journal Trying to Set Right Ancient History.

(From the Indianapolis News.)

The French journal Le Cri de Paris, which is trying to set right some history that has strayed away from the truth, again takes up the story of the punctillious politeness that opened the battle at Fontenoy.

"Who was the officer?" asks Le Cri, "who said to the English at Fontenoy: 'Gentlemen, you will please fire; we never fire first.' Voltaire affirmed that this polite Frenchman was the Count of Anterroche, and the Duke Albert de Bragile in an article in the Revue des Deux Mondes of June 15, 1887, says that Anterroche on that occasion was struck b yseve nballs at the British discharge, that he was cured of his wounds, had much better health than before this event and lived to be 80 years old without ever having been sick.

"Everyone," says Le Cri, "knows the famous phrase attributed to Napoleon: 'The word impossible is not French.' This is but a paraphrase of the words of Anterroche. Some one said to him during the stage of Maestricht :'The city is impregnable.' That word is not French." responded Monsieur Anterroche."

Welcome Delegates and Visitors To The Good Roads Convention

WHILE in the "City by the Sea" make our store your headquarters. Any information or service that we can render will be a pleasure.

You'll find at this store Cool Summer Clothes, and Accessories of the highest quality; stylish for town wear and week-ends at the shore.

Ways and Means committee Democrats considered revenue legislation.

Speaker signed warrant for arrest of District Attorney Marshall, of New York ,for contempt of House.

Passed fortification bill.

Resumed consideration of sundry civil appropriation bill.

Adjourned at 5:30 p. m. until noon Friday.

EARS OF THE SUBMARINE.

Battling Under the Sea With Telephone Connection.

(From the Popular Science Monthly.)

Although the submarine is blind after it dives, it can be made to hear with the aid of microphones, or electrical ears. Edward F. Chandler, an inventor who has made a close study of submarine problems, hav worked out a method of utilizing microphones whereby a submerged craft may direct its course accurately toward a hostile ship.

nut etaoin shrdlu cmfwyp cmfwyp mb

"In the modern telephone," says Mr. Chandler, "the transmitter is essentially a microphone, the pressure of the sound waves being communicated to the conductors by means of a diaphragm. The submarine equipped for battle under the sea is provided with microphones on its port and starboard bows. Telephone earpieces enable the submarine commander to listen to the sounds gathered by the microphones. If the submarine is not pointed head on toward the ship to be destroyed the microphone on the off side will hear less than the other, and the difference in volume of sound received by the two microphone detectors will be noted at once in the telephone receivers. The commander changes his course until he hears equally well with both earpieces.

"While it is perfectly feasible to direct a submarine by telephone, it is not desirable."

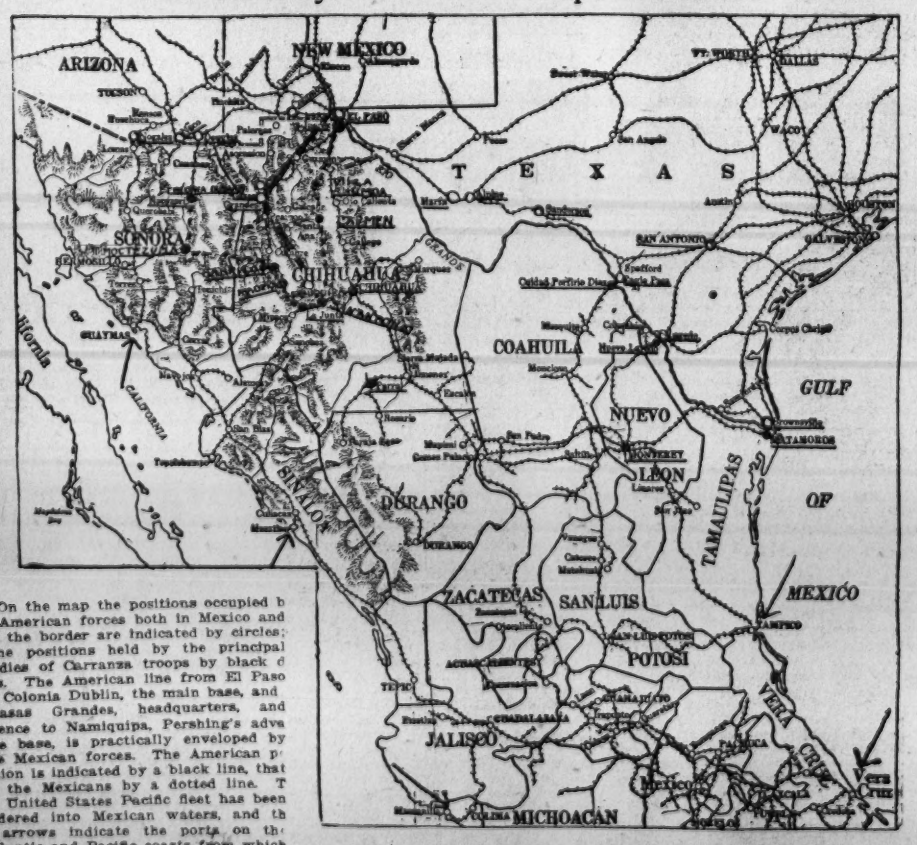
The Law will be Enforced as to Weights and Measures, in New Hanover County, beginning

Saturday, June 17th, 1916

Line Held by American Troops in Mexico



On the map the positions occupied by American forces both in Mexico and on the border are indicated by circles; the positions held by the principal bodies of Carranza troops by black dots. The American line from El Paso to Colonia Dublin, the main base, and Casas Grandes, headquarters, and thence to Namiquipa, Pershing's advance base, is practically enveloped by the Mexican forces. The American position is indicated by a black line, that of the Mexicans by a dotted line. The United States Pacific fleet has been ordered into Mexican waters, and the arrows indicate the ports on the Atlantic and Pacific coasts from which the army in conjunction with the fleets operate.

Delegates! Don't Miss It!

SUPERBAS TAKE BOTH DOUBLE HEADER GAMES

Brooklyn Draws Further Away From National League Champs.

Pittsburg Defeats St. Louis by Heavy Hitting—Braves Win from the Giants—Chicago-Cincinnati Game Rained Out.

RESULTS YESTERDAY
At Brooklyn 5-8; Philadelphia 0-5.
At Pittsburg 8; St. Louis 4.
At New York 1; Boston 3.
At Chicago-Cincinnati, rain.

STANDING OF THE CLUBS

	W	L	Pct.
Brooklyn	31	19	.620
Philadelphia	30	22	.577
New York	25	24	.510
Boston	25	24	.510
Cincinnati	26	28	.481
Chicago	25	29	.463
Pittsburg	22	28	.440
St. Louis	24	33	.421

Brooklyn, June 22.—Brooklyn drew away from Philadelphia today by taking both games of a double header, 5 to 0 and 8 to 5. In the first game Pfeiffer allowed only two hits and did not issue a pass. The second game was more of a battle. The Superbas got off to a fine start, but the Phillies overcame the lead and went to the front in the seventh. Brooklyn came right back by bunching five hits and four runs off Bender and Mayer.

Philadelphia	000 000 000	0	2 3
Brooklyn	000 320 00*	5	9 2

McQuillan, Chalmers and Killifer; Pfeiffer and Meyers.

Second game:

Philadelphia	000 200 300	5	8 2
Brooklyn	300 010 40*	8	14 0

Bender, Mayer and Burns; Smith, Dell, Marquard and McCarty.

New York, June 22.—Boston made it three out of four from New York today by giving the Giants their eighth extra inning defeat on the local field this season winning in the 11th inning 3 to 1. Evers decided a pitchers' battle between Schauer and Nehf in the latter's favor, by stealing home on a triple stead. Gowdy and Snodgrass, of Boston, were ordered out of the game by Umpire Byron in the seventh inning, while Manager McGraw, of New York, was ordered off the coaching line by Umpire Quigley in the sixth inning.

Boston	001 000 000 02	3	7 0
New York	000 100 000 00	1	5 1

Nehf and Gowdy; Tragesser, Schauer and Rariden.

Pittsburg, June 22.—Heavy hitting by Wagner, Hinchman and Wilson enabled Pittsburg to defeat St. Louis here today by a score of 8 to 4. Hinchman got four hits out of as many times at bat.

St. Louis	110 010 100	4	6 3
Pittsburg	100 102 40*	8	13 3

Williams and Snyder; Jacobs and Wilson.

ANNUAL REGATTA OF YALE AND HARVARD CREWS TODAY

New London, Conn., June 22. — The oarsmen of Harvard and Yale are tonight hoping for favorable regatta conditions tomorrow, when the two universities meet in their fiftieth aquatic battle.

Harvard adherents were inclined to offer odds on their 'varsity combination until it was known that Yale 'varsity and freshmen shells had drawn the east lane, and then there was a tendency toward even money. Veteran river men assert that the east lane of the Thames regatta course is faster than the west. In the second varsity event, Harvard drew the east course.

FAIR BLUFF WINS FROM MARION IN 14-INNING GAME.

Marion, S. C., June 22.—Fair Bluff defeated Marion by the score of 3 to 1 in a hotly contested game yesterady. The deciding score was not made until the first half of the 14th inning, when the visitors put across two runs. Features of the game were the pitching of Wood, who allowed only three hits, and the hitting of A. Rogers. Davis for the locals also pitched a good game.

Fair Bluff	000 000 001 000 02		3
Marion	000 000 100 000 00		1

Wood and Rogers; Davis and Crawford.

FAIRMONT LOSES BEAUTIFUL GAME TO LAURINBURG TEAM.

Fairmont, N. C., June 22.—Fairmont lost to Lumberton in a beautifully played game here this afternoon, 2 to 1. Batteries: for Fairmont, Smith and McCormick; for Laurinburg, Lamb and Smith.

Fairmont		1	5 3
Laurinburg		2	8 1

CLEVELAND IS AGAIN HEADING THE COLUMN

Indians Defeat the Tigers and Break Tie for First Place.

Athletics Divide Double Header With the Senators—Red Sox Shut Out the Yankees—St. Louis Blanked by White Sox.

RESULTS YESTERDAY
At Philadelphia 4-1; Washington 2-6.
At Boston 1; New York 0.
At Detroit 3; Cleveland 4.
At St. Louis 0; Chicago 2

WHERE THEY PLAY TODAY
Philadelphia at Boston.
Washington at New York.

STANDING OF THE CLUBS

	W	L	Pct.
Cleveland	33	24	.579
Washington	31	24	.564
Detroit	32	25	.561
New York	29	27	.518
Boston	29	27	.518
Chicago	27	28	.491
St. Louis	22	34	.393
Philadelphia	16	36	.308

Philadelphia, June 22.—Philadelphia divided a double header with Washington here today. The home team broke a long losing streak by winning the first game on Washington's errors, 4 to 2. The visitors took the second event 6 to 1, four of the runs being tallied by Foster, who made a triple and a single, received two bases on balls and was hit by a pitched ball. Lajoie stole second and third in each game.

Washington	000 020 000	2	5 4
Philadelphia	010 100 02*	4	6 1

Rice, Gallia and Henry; Misers and Schang.

Second game:

Washington	002 020 101	6	7 1
Philadelphia	001 000 000	1	6 3

Dumont and Williams; Nabors, Bush, Wyckoff and Schang and Murphy.

Detroit, June 22.—Cleveland broke its tie for first place with Detroit today by defeating the Tigers 4 to 3. With one out, one run needed to tie and men on first and the ninth inning, Burns hit into a double play.

The visitors drove Dubuc from the box in the eighth inning when they scored four runs on two doubles, two singles and a base on balls.

Cleveland	000 000 040	4	9 0
Detroit	000 000 201	3	9 0

Coveleskie, Coumbe, Bagby and O'Neill; Dubuc, Boland, Cunningham and Stanage.

Boston, June 22.—The Boston Americans won the deciding game of the New York series today. Shutting out the visitors 1 to 0. Boston scored in the third when Hooper and Janvryn doubled.

Boston	001 000 00*	1	7 2
New York	000 000 000	0	3 0

Ruth and Thomas; Fisher and Nunamaker.

St. Louis, June 22.—Russell issued but one pass today and allowed St. Louis but two hits, Chicago shutting out the locals 2 to 0.

Chicago	000 000 110	2	6 0
St. Louis	000 000 000	0	2 2

Russell and Schalk; Sisler and Severoid.

CHAMPS DEFEAT HOPEWELL IN LISTLESS, HALF HEARTED CLASH

Rocky Mount, N. C., June 22.—Five to nothing went a listing, half hearted clash won by the Champs from Hopewell on the opening of the series this afternoon. Southpaw Teague missed a no-hit game by a hair's breadth, two being charged against him, one a failure to cover the initial sack on an easy grounder recovered by the baseman, and the other a hopping bounder which the pitcher messed up on a rather difficult chance.

Against this Lewellyn slammed one in the ribs, routed five to first on bad one and gave up 11 safe bingles.

Hopewell	000 000 000	0	2 2
Rocky Mount	102 200 00*	5	11 1

Lewellyn and Rowe; Teague and Ryan; time, 2 hours; attendance, 465.

GUN CLU BSHOOT

Last Practice For Beginners to be Held This Afternoon .

The last practice shoot for beginners who will compete next Friday for a handsome trophy, will be held at the New Hanover Gun Club grounds, 17th and Castle streets, this afternoon at 4 o'clock and it is hoped that a large number will come out. An invitation is extended to beginners to attend whether they have guns or not. If they haven't guns, the club will lend them one to shoot with, as the management is very anxious to have a large number compete.

FAYETTEVILLE DEFEATED BY LUMBERTON BY 10 TO 0 SCORE

Lumberton, N. C., June 22.—Lumberton defeated Fayetteville, 10 to 0, here today, hitting Whitehead hard, while Stone held the locals to three scattered hits. Person and Love, of Lumberton, each made a triple and two singles. The local National Guardsmen were guests of the management.

Lumberton	420 000 004	10	13 1
Fayetteville	000 000 000	0	3 9

Stone and Love; Whitehead and N. McNeill; Umpire, Douglas.

Norfolk, Va., June 22.—The ladies' singles tennis championship of the state of Virginia hinges upon the result of tomorrow's match between Miss Molla Bjurstedt and Miss Florence Balin, of New York. The winner will have to play Miss Elizabeth Bull, a Norfolk girl, present holder of the title, Saturday afternoon.

Roanoke, Va., June 22.—Rev. D. F. Landis, formerly a pastor at Prices Fork, Montgomery county, Va., pleaded guilty in Federal court here today to a charge of violating the Mann White Slave act. He was fined $50. Landis was accused of taking a young married woman out of the state.

During the Good Roads Convention, cars will be operated every fifteen minutes between Lumina and Wrightsville from 9:30 A. M. to 9 P. M. 2t

WILMINGTON GETS RED MEN

Selected by Grand Council as Next Meeting Place—Officers Elected. Adjournment.

(Special Star Telegram.)

Asheville, N. C., June 22.—Adopting resolutions of thanks to the people of Asheville for their reception here; electing officers and selecting Wilmington for the next year's meeting place, the annual convention of the Grand Council of North Carolina, Improved Order of Red Men, adjourned today.

The Grand Council also passed resolutions reasserting its patriotic motives and offering its service to the government in this time of possible trouble.

Officers were elected as follows: Heenan Hughes, of Graham, grand sachem; R. F. Tuttle, of Edenton, great senior sagamore; E. G. West, of Greensboro, great junior sagamore; D. E. Henderson of New Bern, great prophet and great representative two years; Roy C. Flannighan, of Greenville, great representative.

During the afternoon the Red Men were given a trolley ride over the city and a drive through the Biltmore estate. The delegates are leaving for their homes tonight.

BODY OF CAPT. HIRSHERLEY AND THREE OTHERS ARRIVE

Naval Collier Hector Reaches Hampton Roads From Santo Domingo.

Newport News, Va., June 22.—Bringing the bodies of Captain Hirsherley, of the United States marine corps, and three members of the Hector's crew, who were drowned, the United States naval collier Hector, captain Newell, arrived in Hampton Roads today from Santo Domingo. Captain Hirsherley was killed while leading a landing party at Santo Domingo.

In addition to the dead bodies, the Hector also had on board 12 passengers and 36 marines. Among the passengers were Col. and Mrs. Lee, the former in command of the marines at Cape Haitient. He is on leave. Ten of the marines brought home are en route to military prisoners having been court-martialed for minor offenses. The other marines are to be discharged, having served their term of enlistment.

INJUNCTION REFUSED.

Stockholders of Hampton Mills Appeal to Federal Court.

Greenville, S. C., June 22. — Circuit Judge T. J. Mauldin today refused to issue an injunction prayed for by the stockholders of the Parker Cotton Mills Company, with intent to prevent consummation of the sale of the Hampton group of mills to Lockwood, Greene & Company, for $2,555,000. The stockholders then appealed in Federal Court for a receiver for the Parker company, in a further endeavor to prevent the sale.

Judge Mauldin stated in his opinion that no evidence of fraud charged by the stockholders had been adduced and that the court had no rgiht to decide at what price property could be sold.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily and mailed to subscribers outside the county at $6 per year; $3 for six months; $1.50 for three months or served by carrier in the city and suburbs at 60c. per month, or, when paid in advance, $5.00 per year; $2.50 for six months, $1.75 for three months

THE SUNDAY STAR, by mail, one year, $1.00; six months, 50 cents; three months, 25 cents

ADVERTISING RATES may be had on application, and advertisers may rest assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to the readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51. Editorial and Local rooms, No. 61.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and, if acceptable in every other way, they will invariably be rejected, unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders and postal money orders for the paper should be made payable and all communications should be addressed to

THE WILMINGTON STAR CO.

FRIDAY, JUNE 23, 1916.

TOP O' THE MORNING.

I will be as harsh as truth and as uncompromising as justice.
—WILLIAM LLOYD GARRISON

This is the town! Its name is Winsome, Worthwhile Wilmington.

We have our eye on the heroic mood that has been pent up at Oyster Bay.

Many a man acquires greatness by having to get busy and put some fool out of business.

Who would live in a fruitless country when it could be made the most fruitful country on the earth?

"Our resources." What are they? If they are "ours" what are we doing with them? Who are we, anyhow?

We are quiet and determined, but that doesn't keep a fellow from wanting to remain at home so he can scuffle around for the rent.

Men try each other's patience and the trial generally winds up in a fight. It is always hard to tell which side harrassed the other the most.

Even Alaska is to vote on the question of prohibition. The waterwagon is surely getting a long way from Tipperary, in which the tip always remains the same.

Pacifists ought to notice how easy it is for us to get into war in spite of the fact that we might be too proud and charitable to fight nations which seem to insist on being spanked.

Many autoists have found the way to Wilmington this week who didn't know it before. Swain county, adjoining Tennessee, sent a delegation in automobiles to the State Good Roads Convention at Wrightsville Beach.

The Manchester Union makes this authoritative statement: "The skeleton of a 135-foot dinosaur, with a neck more than 65 feet long and thigh bones three feet in diameter, has been unearthed in Utah." With a neck 65 feet long, that monster, of course, had a throat in proportion. Fancy for a moment its preparedness to enjoy an opportunity to slake its thirst.

Colonel Roosevelt has declared that he is "out of politics," but the Hughes standpatters are running to him every day to get him into politics on the side of the Republican party. The Colonel accused the G. O. P. of corruption and of betraying the trust of the people, but it has the nerve to expect him to overlook it and become a supporter of a party that has not recovered from its putridity and repudiation.

We are now enlisting interveners and on and after today will receive applications from all who have been so anxious to bite off Woodrow Wilson's head because of his perverse procrastination, alias "watchful waiting." All who have been disgusted with watching and waiting all this time will please come forward. We have work for a whole corps in addition to the work which we expect to do on the side. R. S. V. P.

"Carranza is to blame," says a contemporary. That'll make Villa laugh. Villa created a situation which he was satisfied that neither the American nor the Mexican authorities would be able to handle. He then went into hiding and left the rest to look after the whirlwind after he had sowed it. Unless Villa is dead, he keenly realizes how easy it is for a knave to mix things up for men whose wisdom can not stand very much of a strain.

Everybody knows that whatever nation we have to fight has to take the blame and get a drubbing besides. We are not always prepared to fight at first, but we always wind up with enough preparedness to make other belligerents sick. That makes our fighting cost us a great deal more, but we fight at any cost and then forget it all till the next fight. It is a reflection on our intelligence, but when ignorance is bliss, intelligence has to take everything that's coming to it.

THE EVIL DAYS DRAW NEAR

What is reported to have been a fierce battle between Carranza troops and a detachment of General Pershing's American army has a serious aspect to it, whatever may later prove to be the facts in the case. The news of the fight came through Mexican sources and they claimed a victory over the Americans. There are reports, however, that the American force engaged was a part of the Tenth cavalry, colored, and the American military heads have reason to believe that it was led into a trap through a flag of truce ruse to get the troops within range of a Mexican force with a machine gun.

On the other hand, the Mexicans claim that the Americans were the aggressors, but it is hardly worth while to speculate as to the matter one way or the other, as The Star's telegraphic department this morning will furnish the latest available particulars about the affair. The Mexicans are said to have been commanded by General Felix Gomez, who is reported to have been among the killed, some twenty to forty on both sides, according to the rumors.

There is no cause for surprise that a conflict finaly has arisen between Mexican and American troops. This country inferred that this was fully anticipated by the Americans when President Wilson a few days ago called out the National Guard for patrol duty on the Mexican border. The longer the American troops remained on Mexican territory, the greater became the friction and now that the expected has happened, nobody can predict where it will end—though it will put an end to Carranza and quite possibly the republic of Mexico as it formerly existed. Discussing what for several days has seemed inevitable, the Washington Herald says:

"Should war came it cannot be conjectured where or when it will end. There will be no doubt of the outcome, however, and with an army properly equipped and large enough the conflict would be of short duration; under present conditions it will take time for the conquest, for conquest it must be if Carranza decrees it. That the people of all the states may know the causes which sent their sons to war and the full purpose of the nation in Mexico it is to be expected that the President will communicate with Congress, as he did at the time of the Vera Cruz expedition, though omitting that formality at the time General Pershing's expedition was started. But whatever the cause of the war, which seems inevitable, or however it may have been brought about, the national duty now is to support the government. The wave of patriotism that has swept the country, evidenced in preparedness parades, should mean that there will be no hanging back. Every militiaman owes it to his country to hasten to his regiment. Full ranks of eager Americans must show the enemy that the wrongs he has inflicted and his insolent disregard for our rights have at last aroused a patient people to determination to uphold their country's traditions."

Most assuredly the "national duty now is to support the government." It has been a national duty all along to support the government in its serious efforts to handle this matter by diplomacy, but the vicious and traitorous politics of this country has misled many so-called patriots to criticise and nag at the administration while it was handling a crisis. How difficult if not impossible the critics have made it for this government to handle this situation must be judged in the future, but some men will sooner or later realize that their self-applied Americanism was only an ill-timed display of imbecile partisanship.

Possibly this country might learn some day that the foreign policy of this government is an American and not a political matter, and that whatever results from this country's diplomacy, it is the whole country's cause. Therefore, the country's diplomacy, as the first cause, is the country's to be backed up in peace as well as in war.

Carranza may not be half so much to blame for the present situation in Mexico as are some of the arrant demagogues of the United States—interested politically and possibly financially in making trouble for Wilson.

THE NEW LIVESTOCK SOUTH.

There is to be another new South—the livestock South—for the industry is on the way from Maryland to Texas. The entire press of the South is back of the movement for more and better cattle, hogs, sheep and diversified farming and farm industry.

The South's hog and cattle industry has developed in a way to demonstrate its great possibilities, and now this is the creamery and packing house stage of the industry. Greenville, S. C., is the latest distributing point to get busy on a meat packing establishment. The Greenville News states that the chamber of commerce committee which went to Moultrie, Ga., to investigate the packing house development there has reported back to the home organization that what they saw at Moultrie was an inspiration to them. Thereupon the committee reported that it is convinced that a packing house at Greenville would be a practical industry and result in promoting the raising of livestock in Greenville and surrounding counties.

Greenville proposes to go ahead with the enterprise, just as Orangeburg decided to do a couple of months ago. Greenville is in the northwestern portion of South Carolina and can easily make itself a packing house market for northwestern South Carolina, northeastern Georgia and southwestern North Carolina, all in the mountain country, so admirably adapted to cattle and sheep raising.

The livestock industry already has made considerable headway in Greenville, Pickens and other South Carolina counties. Cattle rasing received an impetus through the Clemson College creamery, established in 1914. Although that creamery is only two years old, it is now making 10,000 pounds of butter a month and expects to make about 150,000 pounds of butter this year. The Clemson creamery's butter product alone is worth from $3,500 to $4,000 a month.

This is what promotion industries are doing for the South, and sooner or later there will grow up all over the South the great livestock, packing house and creamery industries that will double the income on the farm.

THE NATIONAL GUARD

The mobilization test came too suddenly for the National Guard, although the nucleus from Maine to Texas, from Washington to Florida, showed its patriotism and eagerness to serve the country at the President's call. However, the National Guard is not a unit in organization, as it is composed of 48 different state organizations.

Mobilization for prospective or actual service is something new for this purely volunteer organization. In some of the states the companies have not been kept up to the minimum much less to the maximum membership. Therefore, the companies will be compelled to recruit before they can be mobilized.

Augusta, Ga., has three companies, but the call for mobilization finds all three unprepared to report with even the minimum strength of officers and men. They have been doing some aggressive recruiting but still have failed to get enough for a single one of the three companies to enter the service.

That is going to be one of the troubles with a reserve force entirely voluntary during times of peace. The boys are patriotic enough but the system is one that has to be greatly improved under the new army act just passed by Congress. In willingness the men of this country are every ready to serve their country, but in preparedness it is observed that something else has to be done. The present mobilization will help to disclose that, so that a year from now the National Guard ought to be able to entrain and go straight to the field of service.

This refers to the National Guard as a whole. In some states the organizations is better maintained than in others, while the discipline possibly may be of 48 different kinds. The future system depends upon the new law, so that the present mobilization is not a fair test, such as the Guard will be prepared for a year hence.

A ROOSEVELT LETTER WILL SETTLE IT.

The Progressive National Committee will meet in Chicago next Monday to receive a final answer from Colonel Roosevelt as to whether his tentative declination of the Progressive nomination will be made definite. It is rumored that he already has prepared his formal letter declining the nomination and defining his attitude during the campaign. Washington Republicans are jubilant and claim that they know that the Colonel has no idea of antagonizing Hughes, but will support him and urge all Progressives to do the same.

It is said that the Colonel's letter to the Progressive committee will leave it free to nominate another candidate or to endorse the nomination of Hughes, as is said to be on the programme. The Colonel, it is said, will discuss national politics in a vigorous way and that he will have some pointed things to say about the Mexican situation. However, if the Colonel does not think the country is safe, he ought to stay in the field and make out like he can save it.

According to internal revenue statistics, our exports of whiskey have tremendously increased during the war in Europe. During the fiscal year ended June 30, 1915, we exported 1,663,000 gallons, but for nine months this year, up to March, our exports were 5,850,000. While England is busy with a war, we have about captured her liquor trade in Africa. People will naturally want to know what part of this country is pushing its booze commerce into Africa, but we refuse to always be putting New England in an unenviable light.

American newspaper cartoons making Wilson pull Carranza's whiskers are greatly appreciated in Mexico. They add to the numerous reasons why the Mexicans dearly love the Gringoes. We senors are bully boys with glass eyes, and it does not matter how much contempt we have for foreigners generally, they dearly love us for being cute. We are cordially and affectionately welcomed everywhere we go and nobody anywhere would think of swatting us because we have a contempt for them. Our humor is more awful than our malice.

Who had that empty whiskey bottle all the time till it got empty and was thrown away? A court wants to know that so it can find out from the man where he got the whiskey that used to be in the bottle. They are trying to work up prima facie evidence by finding out who had the bottle last.

MR. W. J. WALLACE DEAD

Register of Deeds of Carteret County Passes Away.

(Special Star Correspondence).

New Bern, N. C., June 22.—Stricken with a sudden attack of indigestion, Mr. W. J. Wallace, register of deeds in Carteret county, died at his home at Beaufort at 11:30 o'clock last night, medical aid, which was given him as quickly as possible after the attack, proving of no avail.

Mr. Wallace was apparently in the best of health yesterday afternoon. He ate a hearty supper and took a walk around the town after 7 o'clock. He was stricken about 10 o'clock and death occurred an hour and a half later.

CURRENT COMMENT

We have before us the souvenir number of The Morning Star, devoted to the Good Roads Convention, which is meeting with the good folks of Wilmington and Wrightsville. It does credit to the management of the paper and we congratulate them on the effort. —New Bern New Bernian.

"Won't be hard," inquiries the Philadelphia North American, "for those congressmen who supported the Hay army bill because of the National Guard vote if all the militiamen are down in Mexico on November 7?" Not necessarily, we should say. The militiamen will be permitted to vote, wherever they may be, if precedent is followed.—Greensboro News.

The Wilmington Star has issued a "Good Roads Edition," which is a credit to that excellent journal. But the Star's editors, managers and mechanical force never turn out anything that is mediocre, because it is up-to-date, progressive and reliable. The Star is a strong champion of good roads, and thereby good roads gain much—Fayetteville Observer.

Felicitations to the Wilmington Star on its good roads edition. It is one of the most attractive publications we have seen. With 28 pages filled with live reading matter, attractively displayed advertisements and excellent illustrations, the edition formed a splendid preliminary to the good roads meeting which opened yesterday at Wrightsville Beach.—Raleigh News and Observer.

The Morning Star is right in saying that Wilmington is the Convention City of North Carolina. There is no other town in the State that has so many ways of entertaining the visitors to conventions or on pleasure bent. There are more delightful drives, places to visit by water and street cars than can be found in many cities of the land today. Why not make a motion to hold all conventions in or around Wilmington? We see the announcement that the Press Association meets this year in an inland city, and the committee made a mistake in carrying it there. Who wants to go where the ocean's briny breath cannot fan them or where fish never swim at all? We second the motion of The Star that Wilmington be made the Convention City of North Carolina.—Whiteville News-Reporter.

Some of the big industrial concerns of the South will pay their men, who belong to the National Guard, the difference between their wages and army pay, while they are serving their country. This is patriotism which cannot be questioned. The people of the remainder of the country will please observe that this is being done in the South, where the Confederate flag is still the signal for cheering and the people know that General Robert E. Lee was a greater military genius than General Grant. It is a little difficult for the folks in other sections of the country to understand the Southern temperament and character, but when the boys from the Southern states arrive on the Mexican border, or are sent into Mexico, they will demonstrate that the men from this section can maintain the military traditions of their fathers who fought in the Revolution and every war waged by this country since 1776.—Rock Hill Herald.

AT FORT OGLETHORPE.

The Military Training Camp as Jack Forrest, a Rookie, Sees It.

Dear Bill:

I've had your letter for a matter of a dime's worth of days in which you tell me the city editor asked for a series of letters from my very worthy pen, on this Southern Military Training Camp, feeling as he puts it that "I should be thoroughly qualified to discuss the proposition and make the comparison with the Plattsburg Camp," me having served one "sentence" there and one here.

Of course, I'm very much pleased to think the editor of our great semi-weekly would consider my humble offerings as worthy of space in his sheet. In it I see an opportunity to become known from coast to coast as one of the literary lights, dimmers would probably be a better word, and I am already anticipating that very delightful feeling that must chase itself up and down the spinal column of these scribes when as I register at some great hotel at Atlantic City 12 months hence to spend a few hundred of the royalties I will be receiving then from this series of articles, I know the whole lobby has paused and is saying to itself, "Ah, that's the great newspaper writer."

So much for that. By the way that, "so much for that" is one of the expressions General Leonard Wood kept pulling all during the talk he gave we rookies while he was here in May. If he can use it why can't I?

Our camp here, to get down to the shiny headed pins used for holding carpets to the floor, is the best ever. I wrote you about Platsburg so many times last year that I know you will wonder how it could be improved upon, but these fellows at Fort Oglethorpe "have got it."

Now, just let me have your undivided attention Bill, and I'll put the final clincher into the arguments you are turning over in that bean of yours as to coming to the July camp. As I once mentioned, Platsburg was good but: At Plattsburg we lived in the same kind of tents set right out in the blistering sun while here the camp is located in one of the prettiest groves you ever didn't see. Great tall pines and oaks arch above us, clear over to the parade grounds, throwing on the terra firma one more great flock of dark cooling shade. And believe me, William: when you have come in from a hike after lugging that famous 38-pound pack for two hours all the way, Lookout Mountain on one side of the parade ground to Miami, Fla., on the other, that above mentioned shade looks good. Sun stroke is one thing not on the calendar. We don't even have to wear our lids when we go to the mess hall, several hundred feet from our tents. The camp is on the side of a 4 per cent hill, just slopes enough to drain well.

The Chattanooga bunch that had the preparation of the camp in charge fixed it up more like a Chautauqua tenting ground. We have floors in our tents this summer and that's another great improvement. Sand floors made it hard for you to keep your kits clean. This way, too, when it rains all we have to do is just do like they do in Arkansas, (some do's, Bill, I'm good at this), while at Plattsburg every time we had to roll up our pants and go out in it to trench the tent.

The bugler has just whistled his call for "chow." To me that's an event I look forward to three times per while at these camps so I'll rip off a little more about this camp later. Whatever else you do this summer make your plans to be here July 12, when the next one opens. Yours as ever,

JACK FORREST.

NEW SHADE OF NAVY BLUE

Uniform of Our Jackies May Be Changed.

(From the Washington Post.)

There continues to be discussion among navy officers as to the uniform best suited for members of the enlisted force, with special reference to the apparel of landing parties. This has been a live subject since the naval occupation of Vera Cruz, when there was much complaint on account of the use of white clothing, which obviously furnish a better target than a less conspicuous color of uniform.

One question is as to the shade of blue that should be adopted, if that color is determined upon as the most suited to service needs. In addition to the factor of a protective uniform. It is reported that men going on shore leave and returning after 24 hours' liberty as a rule are not neat and tidy when white is prescribed as a uniform. There is by no means unanimity of opinion among officers as to the color of uniform to be adopted in the service by landing parties. The expert view on the subject is divided between blue and khaki, with further division in the latter instance between the shades of olive drab and grayish green.

HEALTH IS WEALTH

by John B. Huber, A.M., M.D.

The sins of our youth we atone for in our old age.

Great Aches From Little Toe Corns Grow.

YESTERDAY we considered supposed flat foot. Here are two instructive cases: A saleswoman who had to stand many hours of the day, weighing two hundred pounds, her height five feet and five inches, wore fashionable shoes with narrow pointed toes and high "Cuban" heels. She complained of pain in the feet and in the tendon behind the ankles. Flat foot had here "nothing to do with the case." The trouble was due to corns; and the corns were due to vanity. Again, a clerk of twenty-one years was long treated for rheumatism. He had always been athletic until his nineteenth year, when he went to desk work. For considerable pain in both feet he consulted a physician, whose diagnosis was rheumatism, but whose prescriptions gave no valid relief. Then seeing a newspaper advertisement guaranteeing cure in all cases of rheumatism, he applied for treatment and was given a pair of perfectly flat copper plates to be placed in his shoes. These plates, he was told, would generate a rapidly curative electricity. He "paid fabulous sums for treatment which, after several months' trial, yielded no relief." There was here no rheumatism whatever, but a dislocation (in both feet) of a bone entering into the ankle joint. And the feet were weak, by reason of sudden change from an active to a sedentary life, in a rapidly growing young man.

There have of recent years, so it would seem, been rather successful efforts made to bring Dame fashion, even though she goes to extremities, into some kind of an amicable, working relation with Hygieia. Many of the great shoe manufacturers, indeed, now consult surgeons as to their shoe construction plans, try to learn a little something about the anatomy and the mechanics of the human foot. A natural foot, undistorted by fashion or misuse, has for one thing the great toe in a nearly straight line with the inner border of the foot. Wherefore the best way to avoid all pedal malformation and torture would be to start life (for even babies get corns), and to keep throughout life, wearing a shoe with a straight inner edge.

"SEVEN YEARS' ITCH."

Answer to S. M.: I deeply sympathize with you. Your letter is much too long to be printed. There is certainly nothing amusing about your trouble. Doctors call it scabies. Go to the druggist and get three ounces of sulphur ointment. One ounce of this is to be used three nights hand-running. At bedtime pare your nails very close and then rub this ointment vigorously all over your body and neck, especially the armpits, the groins and wherever the eruptions are, and between the fingers and toes. Then put on old nightclothing. Next morning on rising give yourself a warm bath, using plenty of tar soap. Then put on fresh underclothes. The second and the third night and mornings do the same thing. After which shampoo your hair in the most thorough manner possible. Then go and get your hair cut as close as possible, though not a "crop." Now throw away, or far better burn, all the undergarments and socks you can afford to dispose of that way. And boil for an hour in a wash boiler all the undergarments you intend for future wear; also all the bed sheets and pillow shams that have ever been on your bed. Then go to your county health department or to some hospital and ask them to sterilize by dry hot air all your clothing, coats, trousers, etc., that can possibly have come in contact with your skin. Also your bed mattress. This will in all probability end the distress you have had during so many months. And yet you may have to repeat those three nights and days' treatments at weekly intervals once, or even twice more. There is no other way of getting rid of this trouble, which is due to a parasite burrowing under the epidermis and into the skin.

WATER IN THE BODY.

T. M. writes: What are the principal uses of water in the body?

Answer: Water is essential to life. It is a constituent of all the bodily tissues and fluids. It dissolves our food, and without such solution no food can be absorbed to the body's needs. Water distributes the nutriment, removes waste matters and conveys them to the organs of elimination. And by evaporation water aids in maintaining the right bodily temperature.

This column is devoted to disease prevention; to physical and mental hygiene; to domestic, industrial and public sanitation; to the promotion of health; efficiency and long life. The latest developments in medical science will be presented. Questions of general interest will be answered here, space permitting—others by mail if stamped return envelope is enclosed. Requests for personal diagnosis or treatment cannot, however, be considered in any way.

TOMORROW: And there are others

HOW TO REDUCE YOUR WEIGHT

A SIMPLE, SAFE, RELIABLE WAY.

People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply, and get from Elvington's Pharmacy, or any good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week, so as to know just how fast you are losing weight, and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight, footsteps become lighter, your work seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

STATE OF NORTH CAROLINA, COUNTY of New Hanover.

Rose H. Wachs vs. Samuel J. Wachs.

This is an action brought by the plaintiff in the above entitled cause against the defendant above named, on the ground of Adultery.

It being made to appear that Samuel J. Wachs is a non-resident of the State of North Carolina, and can not, after due diligence be found in this State;

This is, therefore, to notify said defendant to appear at the next term of the Superior Court of New Hanover county and State of North Carolina, to be held on the first Monday after the first Monday in September, A. D. 1916, then and there to answer or demur to the plaintiff's complaint, or judgment will be granted according to the prayer of the complainant.

In Witness Whereof, I have hereunto set my hand and seal of office this the 8th day of June, A. D. 1916.

W. N. HARRISS,
je 9-fr-4t Clerk Superior Court.

SECOND REGIMENT WILL MOBILIZE WEDNESDAY

Wilmington Officers Notified by Colonel W. C. Rodman.

Capt. E. P. Bailey Ordered to Forward All Cots of Wilmington Light Infantry to Camp Glenn for Use of Infantry.

The Second Regiment of Infantry of the North Carolina National Guard will mobilize at Camp Glenn at Morehead City on Wednesday of next week, according to telegrams received in Wilmington yesterday by Lieut. Col. John VanB. Metts and Lieut. W. P. Monroe, the latter quartermaster and commissary, from Col. W. C. Rodman, commanding officer of this regiment. Colonel Rodman stated in his telegrams that orders were being sent by mail from the office of Adjutant General Laurence W. Young in Raleigh.

The mobilizing of the Second Regiment follows that of the First Regiment, which goes into camp at Morehead City on Saturday of this week. The Third Regiment is expected to mobilize at the same place the latter part of next week.

There was great local interest in the Mexican situation yesterday and word from Gen. Pershing as to the encounter on Thursday when a score of American soldiers were reported to have been killed was awaited with much anxiety.

Capt. E. P. Bailey, commander of the Wilmington Light Infantry, received orders from Adjutant General Young yesterday to ship immediately the 65 cots which were assigned to the local company by the War Department, to Morehead City to be used by the infantry. The minimum enrollment of a company in times of peace is placed at 65 men while in war times a company is supposed to have 108 men. Each company of the militia is provided with 65 cots and the ordering of the equipment of the Coast Artillery to Morehead City indicates that all the infantry companies are recruiting to their full war strength.

That the Coast Artillery, of which the Wilmington Light Infantry is a part, will be called to the colors at an early date is the belief of many here. Just now Captain Bailey and his men are awaiting with much interest the developments on the border and should the call come to them, they will be ready to answer with alacrity. Speaking of the Coast Artillery corps, the Greensboro News of yesterday said:

"Miltonic service is not altogether satisfactory to the single branch of the militia in this section of the State not called to mobilization. This branch is the coast artillery and Greensboro is headquarters for it. National Guard officers in the State recognize the head of the efficient little corps of six companies, Major E. D. Kuykendall, of Greensboro, as one of the ablest of the militia commanders, and it is an open secret that Major Kuykendall does not want to be at home reading the bulletins in case there is any real chance for real service on the field. The consequence of these conditions is that he is at present probably not altogether pleased with the orders to do nothing with his well trained men who are approximately 300 in number in lax peace times and susceptible to ready recruit to a higher figure."

Dr. C. F. Strosnider, of Wilmington, who is a member of the Medical Reserve corps of the regular army, may be affected later by the call to the colors. Dr. Strosnider is arranging his affairs to answer the call should it come as a result of the developments on the Mexican border.

LARGE ATTENDANCE AT THE OPENING MEETING

Of the Annual Convention of the State B. Y. P. U.

Inspiring Addresses by President L. Bunn Olive and Other Speakers. Secretary Arthur Flake Speaks Tonight.

More than 300 young people from all parts of the State arrived in Wilmington yesterday and last night to attend the seventh annual convention of the Baptist Young People's Union, which met in the First Baptist church last night to be in session through Sunday. The opening meeting was featured by inspiring addresses by President L. Bunn Olive, of Delway; Rev. J. T. Riddick, of Durham, and Secretary Arthur Flake, of Baldwyn, Miss. There will be several important addresses this morning and this afternoon will be given over to recreation. Tonight Mr. Arthur Flake will will speak again.

The visiting delegates are being entertained in the homes of the Baptist people of the city. Mr. Coy Hewlett, chairman of the entertainment committee, with the assistance of the members of the church has provided for the comfort of all the visitors in a most satisfactory manner.

The morning session will begin at 9 o'clock with a devotional meeting to be conducted by representatives of the B. Y. P. U. of the First Baptist church of Lumberton. After reports by the representatives of the schools and colleges there will be an address by President E. Walter Sikes, of Coker College, Hartsville, S. C., who will speak on "The B. Y. PP U. in the Mission of "The B. Y. P. U. in the Mission of Apex, will make an address this morning on "The B. Y. P. U. in the Student-life of the Baptist College."

The service tonight which begins at 8:15 o'clock will be opened with a demonstration service by the B. Y. P. U. of Wilmington after which Secretary Arthur Flake will make an address.

President L. Bunn Olive, of Delway, made a very helpful address last night on the B. Y. P. U. in the Secondary Baptist School. He was introduced by C. C. Cashwell, Esq., of Wilmington. Rev. J. T. Riddick, of Durham, made an address on "Utilizing All Our Baptist Young People" and Secretary Flake spoke on the importance of study as a means of service. The choir of the First Baptist church sang several selections and Mrs. Longfellow and Mrs. Muse sang a very enjoyable duet.

TRUCK WAS DITCHED

County Machine Went Into Ditch Yesterday Afternoon—Driver Hurt.

The new county truck, recently purchased for transporting the convicts to and from the work house and in hauling material on the roads, was ditched just beyond the railroad crossing in Delgado early yesterday afternoon while returning from the Sound where it had been used in carrying a delegation of the good roads convention back to Wrightsville after the automobile drive over the county roads yesterday morning.

The steering gear of the truck went wrong in some way and Driver Grady Cook saved himself by jumping as the car plunged into the ditch. As it was, he suffered a cut on the lip and had a rather painful abrasion of the leg. He was taken to the hospital where his injuries were dressed and he later went to his home. There were none of the delegates in the chairs at the time, chairs having been used on the floor of the truck for their seating while making the tour of the roads, and these having been piled up in confusion as the truck went over.

PHARMACY CONVENTION ADJOURNED YESTERDAY

Mr. E. G. Birdsong, of Raleigh, Elected President.

Other Officers are Elevated at Closing Session Yesterday Morning—Visitors Enjoy Trip to Sea. Splendid Meeting.

After having had one of the most successful conventions in the 37 years of its history, the North Carolina Pharmaceutical Association, which had been in session for three days at the Oceanic Hotel at Wrightsville Beach, adjourned yesterday morning following the election of officers and the hearing of reports of special committees to meet again in 1917 in Asheville. The pharmacists were the guests yesterday afternoon on a delightful trip out to sea of the Traveling Men's Auxiliary of the association.

The officers for the ensuing year are as follows: President, Mr. E. G. Birdsong, of Raleigh; First vice president, Mr. G. A. Matton, High Point; second vice president, Mr. S. E. Welfare, Winston-Salem; third vice president, Mr. George Pilkington, Pittsboro; secretary, Prof. J. G. Beard, Chapel Hill; treasurer, Mr. G. E. Burwell, Charlotte.

Mr. V. E. Zoeller was recommended to the Governor for re-appointment to the Pharmaceutical Board of Examiners. The executive committee for the ensuing year is composed of Messrs. C. J. Horne, of Greenville; P. A. Lee, of Dunn; S. O. Blair, of Monroe; A. G. Thomas, of Duke, and E. L. Tarkenton, of Wilson.

It was decided that the association should have a Ladies' Auxiliary which will be organized at the next convention in Asheville. The Carolina Journal of Pharmacy, which is published at Chapel Hill by Prof. J. G. Beard, of the University of North Carolina, was adopted by the association as its official organ.

Following the business meeting yesterday Dr. Henry P. Hynson, of Baltimore, who has been attending the meetings of the convention, made an interesting address on prescription reading.

Resolutions of appreciation for the handsome treatment received by the visitors from the local entertainment committee and the Oceanic hotel management were adopted at the meeting yesterday. There are 300 members of the association and half of these attended the convention, which makes a very creditable showing. The association has the largest membership it has ever had and is constantly growing. The prospects for the future were never brighter.

Many of the visitors left yesterday afternoon and last night for their homes in various sections of the State. All expressed themselves as greatly delighted with Wilmington, Wrightsville Beach and the entire surrounding country. Everything went off smoothly at the convention and it was in every way a great success.

EFFORTS TO RAISE SUNKEN VESSEL PROVE UNSUCCESSFUL

Captain Potter Tries to Save Fishing Smack Col. Austin.

Capt. T. R. Potter, of Philadelphia, who recently came here with a wrecking outfit to raise the $10,000 fishing smack, Col. Austin, which lies under a considerable depth of water on the Cape Fear bar, where it grounded and went down several months ago, was in port yesterday after an unsuccessful effort to raise the vessel.

His outfit consist of the tender tug Wild Cat and two large pontoons, some 40 feet in length and 10 feet in diameter. Divers found it impossible to get chains under the vessel's hull, and for this reason efforts to raise her will probably be abandoned. The pontoons which are moored at the Wilmington Iron Works dock at the foot of Orange street, have attracted much attention. Each has a lifting capacity of 62 tons, and in raising a sunken vessel they are filled with water and submerged, one on each side of the boat. An air-compressor on the tug is then used to force the water out of the pontoons. But before this is done heavy chains are passed under the hull of the vessel and fastened to the pontoons.

DR. POTEAT TO SPEAK.

Wake Forest President Will Take the Place of Rev. Dr. B. D. Gray.

Dr. W. L. Poteat, president of Wake Forest College, has been secured to take the place of Dr. B. D. Gray, on the programme for the Baptist Seaside Assembly, which will be in session at Wrightsville Beach next week. Dr. Gray has been ordered to a hospital, and could not for this reason meet his engagement. In connection with the Assembly, the following appeared this week in Charity and Children, of Thomasville:

"Dr. Hurt, of the First Baptist church of Wilmington, and one of the moving spirits in the Seaside Assembly, is a great organizer, and a "live wire" generally. We expect to hear good tidings from the Assembly this year, and we hope the next meeting will not come in conflict with the big days at the Orphanage."

COMMUNITY CLUB MEETS

Interesting Addresses Made by Chairman J. O. Carr and Prof. Catlett.

The first meeting since organization of the Community Service club, of Masonboro was held on Wednesday evening at the school house and was a most enjoyable affair. Most of the people of the community were present and were pleased to have as visitors Chairman J. O. Carr, of the Board of Education, and Prof. Washington Catlett, superintendent of public instruction.

Chairman Carr made a splendid talk on the "Importance of Good Attendance" which contained many helpful suggestions. Professor Catlett was in his usual pleasant mood and after a very interesting talk conducted an old time spelling match in which nearly all present participated. Mrs. Addison Hewlett was the last to be left standing and was awarded the prize which was a bouque tof beautiful flowers.

Old Maids' Convention.

The young ladies Single Blessedness Debating Society will have its regular annual old maids' convention at the Wrightsboro school house on Friday evening, June 23. Everyone is invited, especially timid bachelors and widowers, this being leap-year, who are assured that they will have no trouble in finding just what they desire in the way of a life-long companion.

VETERINARIANS MEET NEXT IN CHARLOTTE

Fifteenth Annual Convention Adjourned Yesterday Morning.

Legislative and Other Committees Appointed—Addresses by Dr. Chas. T. Nesbitt and Others—Meeting Was Great Success.

The 15th annual convention of the North Carolina Veterinary Association after having been in session at the Seashore Hotel for two days, adjourned yesterday at noon to meet again next June in Charlotte. The Queen City won out over Winston-Salem after a spirited contest. There were many of the visitors who wanted the convention to come back to Wrightsville next year as they were highly pleased with the resort.

The morning session yesterday was featured by interesting addresses by Dr. Charles T. Nesbitt, of Wilmington; Dr. H. B. F. Jervis, of Greensboro; Dr. C. L. Cruse, of Statesville, and Dr. J. I. Neal, of Sanford.

A legislative committee was appointed consisting of Dr. B. B. Flowe, Dr. L. F. Koonce and Dr. L. J. Hrering. Dr. L. J. Herring was appointed chairman of the publication committee.

Dr. Thos. B. Carroll, of Wilmington; Dr. L. F. Koonce, of Raleigh, and Dr. J. P. Spoon, of Burlington, were appointed a committee to confer with farm demonstration agents with reference to determining the duties of veterinarians in treating animals.

Officers were named at the session Wednesday night. The Board of Examiners for the ensuing year will be: Dr. T. B. Carroll, Wilmington, president; Dr. G. A. Roberts, Raleigh, secretary and treasurer; Dr. Watt Ashcraft, Monroe; Dr. J. I. Handley, Charlotte; Dr. L. J. Herring, Wilson.

Three new names were added to the list of 14 who passed the State Board examination, these being Drs. F. N. Evans, Fayetteville; E. P. McBane, Raleigh; B. M. Weston, Swann Quarter.

MOTHER OF FOUNDLING A STRANGER, POLICE SAY

Six-Weeks-Old Girl Baby is Abandoned at Southerland Home.

The police believe they have a clue as to the identity of the mother who abandoned her six-weeks-old girl baby about 2:45 o'clock yesterday morning on the porch of the residence of Mr. F. M. Southerland, No. 104 Church street. From information they have received through investigation, they learned that a colored woman, who arrived on one of the late trains Wednesday night, brought an infant with her to the city and was met by a white woman. The colored woman, who was carrying the baby on a pillow similar to the one found with the abandoned child, and the white woman, presumably its mother, then hired a hack and drove in the direction of the place where the baby was discovered.

The police have located the hackman, but according to statements made to them, the white woman left yesterday for Mt. Tabor, and the colored woman returned to Goldsboro. It is this fact that leads them to believe that the child's parents are non-residents. It is thought that those who left the baby intended to place it on the porch of the Baby Hospital, but owing to the fact that lights were burning there and the nurses were on duty, they changed their minds and placed it on the porch of the Southerland residence.

Mrs. Southerland was awakened by the infant's cries. It was found on the rear porch, where it had rolled off its pillow. Mr. Southerland notified the police station, and Officers Moore, Kermon and Gray were sent up to investigate the matter. They carried the baby to the James Walker Memorial Hospital, where it is being cared for.

TO SPEAK ON PERSIA

Mr. William Y. Sayad Will Give Lecture In Memorial Hall of St. Andrew's.

It is with pleasure that the Christian Endeavor Society of St. Andrew's Presbyterian church will have Mr. William Y. Sayad with them in the Memorial Hall on next Monday evening. In this way an opportunity is offered to all to hear of Persia and assist Mr. Sayad has done good work in college tion.

In his effort to secure an education that will enable him to return to Persia as a missionary it is very encouraging to hear words of commendation for this young man. Of particular interest would be the statements of Dr. W. J. Martin, president of Davidson College, and Prof. M. G. Fulton, professor of English at Davidson.

Dr. Martin says, "Mr. William Y. Sayad has done good work in college and has shown much oratorical ability, taking an active interest in the development of his talents along this line. I am sure that you will find him a forceful and interesting speaker. He has decided to make a stereopticon tour again this summer, telling of his native land and conditions there. These lectures were found most interesting and instructive by his audience, and I have heard many speak of them and Mr. Sayad most kindly."

Professor Fulton says, "Mr. Sayad speaks English with ease and precision unusual in a foreigner. His ability as a speaker has won him several oratorical distinctions at Davidson College. Those who attend his lectures need have no fears of not being able to understand him."

FIRST COTTON BLOOMS

One From Evergreen and One From Rocky Point Received Yesterday.

The Star ha sreceived first cotton blooms of the season from Mr. A. L. Benton, of Evergreen, and from Messrs. J. K. and D. R. Ormsby, of Rocky Point. The latter report that the cotton blossoms was plucked from a 12-acre field of fine cotton, taking into consideration the fact that a cold spring gave the plants a bad start. Mr. Benton is a well known farmer of Columbus county and an experienced cotton grower.

TO LINK UP THE HIGHWAY

Anson and Union Counties to Improve Wilmington-Charlotte Road and Connect.

At an enthusiastic meeting of the delegates from Union and Anson counties to the Good Roads convention held yesterday afternoon at the Hotel Wilmington, a movement was set on foot which will result in the immediate improvement of the links of the Wilmington-Charlotte-Asheville highway in the counties named.

The meeting was called for the purpose of getting the delegates from the counties concerned to agree upon a point on the county line at which the links which are in process of construction or upon which contracts for construction have been let in the counties named shall connect up.

The Union county delegates agreed to build their section of the highway to a point on the county line south of the Seaboard Air Line at Peachland, and Anson county delegates agreed to tie in their section of the highway at this point.

To eliminate a dangerous railroad crossing between Polkton and Marshville, it was agreed to construct an overhead crossing at Peachland. The Pinehurst-Charlotte highway will link up with the main highway at either Rockingham, cross the Pee Dee river at Bluette Falls over a concrete dry ford below the stone dam, or else tie in at Wadesboro via Smith's Ferry.

For the construction of the Anson links of the highway aggregating 21 miles of unimproved road, the contract was let last Saturday to Mr. W. M. Thompson, contractor. Anson county has already built a road to Smith's Ferry, it was pointed out, which will accomodate traffic to Wilmington by way of Wadesboro. The county chain gang is also constructing 17 miles of graded road north to Rocky River, which will open up traffic to the seacoast from Stanly county. Ten miles of this stretch has been built and the balance will be finished by next fall.

The meeting was presided over by Mr. C. B. Covington, of Marshville, Union county. Others who took part in the discussion were Messrs. R. M. McWhorter, P. E. Marsh, H. K. Helms, L. E. Huggins, of Union county, and W. B. Sikes, of Durham. Short addresses also were made by Dr. J. E. Hart, T. C. Coxe, R. G. Austin, F. W. Dunlap, L. E. Huggins and W. M. Perry, of Anson county.

Visitors.

ONE PROPOSITION CARRIED

As to Waterworks and Fire Apparatus, According to Report of Board of Elections to Council.

As a result of the purging of the registration books of voters who were disqualified by reason of their failure to pay their poll tax at a meeting of the City Board of Elections held yesterday morning, the indications are that both the waterworks and fire apparatus propositions carried in the recent city improvement election.

The work of canvassing of the returns of the election was finished by the board, and it appears that the proposition to extend the waterworks system in the eastern part of the city and purchase of an aerial hook and ladder truck for the fire department both carried by a majority of nine votes. The other two propositions, one to pay one-fourth the cost of a manufacturing suburb, and the other for the paving of Princess street, were lost. The report of Mr. G. W. Anderson, public accountant, who was employed by the board to check up the registration books with the tax books, was adopted by the board. The report will be submitted to City Council, which body will declare the result of the election.

This report shows that when the investigation started there were apparently 2,886 electors whose names appeared on the registration books. From this number 335 were deducted as disqualified by reason of the fact that they had failed to pay their poll tax or other legal disqualifications. This reduced the eligible electors on the books down to 2,551. A majority of the registered electors is therefore 1,276. The original report showed that apparently 146 illegal votes had been cast, but from a hearing conducted by the board 42 of this number were shown to be qualified. The net number of illegal votes was therefore 104. The votes cast at the election for the water and sewerage proposition aggregated 1,389 from which number the 104 illegal votes are to be deducted, leaving a net vote for the proposition of 1,285, or a majority of nine votes in favor of the proposition.

Real Estate Transfers.

The following deeds were filed for record yesterday in the office of the Register of Deeds: Mrs. Louisa G. Wright and Alice Holmes Wright to the Cape Fear Country Club, for $665, tract of three acres of land adjoining the golf links in East Wilmington; F. W. Dick, trustee, to Floyd W. Coxe and wife, for $50 and other consideration, lot on west side of 17th street, 115 feet south of Orange, 41 by 155 feet in size.

SUSTAINS BROKEN ARM.

Deputy Sheriff Reynolds Suffers Painful Accident.

Deputy Sheriff E. C. Reynolds, while making an inspection of the loop shortly after 5 o'clock yesterday morning, was thrown with considerable force from his motorcycle as a result of the mudguard on the machine working loose and clamping the front wheel. His left arm was broken near the shoulder, and he was also painfully bruised about the body as a result of the accident, which occurred near the Martindale Farm, on the Federal Point road, while the officer was making about 25 miles an hour.

Deputy Sheriff Reynolds had been asked to run over the road and see if it were in condition for the inspection of the Good Roads Convention delegates. He was first taken to his home, No. 1011 South Sixth street, by Mr. Owen Martindale, but was later removed to the James Walker Memorial Hospital for treatment. The machine was only slightly damaged.

MISS HAZEL LAMBERT BRIDE OF MR. WILLIAM E. ORMOND

Mt. Olive, N. C., June 22.—On Tuesday morning at 10 o'clock, a great concourse of friends and relatives assembled at the Baptist church here to witness the marriage of Miss Hazel Lambert, of this city, and Mr. William Ernest Ormond, son of Mr. and Mrs. I. F. Ormond, of Goldsboro.

The church was simply but artistically decorated with ferns and cut flowers. The altar was banked with ferns, forming a low pyramid, interspersed with white carnations and shasta daisies.

Before the ceremony, Miss Ellen McPhail, dressed in white organdie, entered the choir loft and played Chopin's prelude, then announced the arrival of the bridal party with Lohengrin's wedding march.

Rev. R. H. Herring, pastor of the Baptist church, entered at the choir door and took his position at the altar. The ushers, Messrs. Leslie Yelverton and Earl Ormond, of Goldsboro, and Henry Knowles and Ralph English, of Mt. Olive, came down the center aisle and formed a semi-circle. The little flower girls, Frances Cherry and Margaret Ormond, in dainty white organdie, came carrying baskets of pink sweet peas, followed by Master Samuel Byrd, nephew of the bride, carrying the ring in a tiny silver waiter. The groom and best man, Mr. Paschal, of Wilson, entered and awaited the bride at the altar, who entered on the arm of her sister, Mrs. Samuel Byrd.

Miss Lambert was charming in a traveling suit of navy blue gabardine, with gloves and shoes of grey kid, and carrying a shower bouquet of bride's roses. Mrs. Byrd wore a handsome gown of navy blue georgette crepe and taffeta, with big picture hat, and carried a shower bouquet of pink Killarney roses.

McDowell's "To a Wild Rose," was played softly during the ceremony, and Mendelssohn's wedding march as the bridal party left the church.

With congratulations and good wishes from a host of friends, the happy couple left on the 10:30 train for Northern cities. After two weeks they will be at home in Wilmington.

• • •

Yesterday's Raleigh Times: "Under the direction of E. R. Carroll and Robert Wilson, 75 young people left early Thursday morning in a special Pullman over the Seaboard for Wilmington to attend the B. Y. P. U. convention. In the party were a number from the Junior Baptist Young People's Union of the Tabernacle church, who will give a special demonstration at the convention.

• • •

MISS PHOEBE BISHOP BRIDE OF MR. GASTON D. PHARES.

Of interest to many friends in Wilmington and elsewhere will be the announcement of the marriage of Mr. Gaston Drake Phares, Jr., of this city and Miss Phoebe Eleanor Bishop, daughter of Dr. and Mrs. C. M. Bishop, of Georgetown, Texas, which was solemnized at the First Methodist church in that city on Wednesday of last week, the ceremony being performed by Rev. Dr. D. W. Carter.

Mr. and Mrs. Phares left for Wilmington immediately after their marriage. The groom is a well known young business man here, being a member of the Wilmington Cycle Company. The bride is the cultured daughter of President and Mrs. C. M. Bishop, of Southwestern University, and made her home in Georgetown for several years, where she was universally admired for her many lovely traits of character. She was educated in Southwestern University and has a great many friends in many sections of Texas.

The Georgetown Commercial of the past week has an extended account of the wedding which was an elaborate affair. "The church was beautifully decorated with ferns and palms," says The Commercial, "and was a bower of loveliness for the occasion which united the lives of these beloved young people for few, indeed, have ever lived here who have so universally endeared themselves to the entire community as Miss Bishop and the church was crowded with friends who wished them Godspeed in their journey through life."

Following the wedding a reception was given in honor of Mr. and Mrs. Phares of which The Commercial says: "The party left the church to the strains of Mendelssohn's wedding march and proceeded in waiting automobiles to the Woman's Building, where a reception was held. The home was beautifully decorated, the living room and parlor in cut flowers and potted plants while in the dining room the center table was artistic with its lace cover and reflector with a large statue of victorious cupid on it, around which was banked the delicate sweet peas. The gifts, many and beautiful, were displayed in the music room. In the receiving line were Dr. and Mrs. C. M. Bishop, Mr. and Mrs. Phares and the wedding party. Refreshments of brick ice cream and cake in the wedding colors, pink and white, were served to about 125 guests after which the bridal party and many friends of the groom repaired to the M. K. and T. station where they took the train for Wilmington, N. C., their future home."

PERSONAL PARAGRAPHS

—Yesterday's Raleigh News and Observer: "Mr. C. B. Foy, of Wilmington, arrived in the city yesterday to spend several days on business."

—Editor Theodore Partrick, of the Sampson Democrat ,Clinton, was among the small army of good roads people who invaded the city yesterday for the convention at Wrightsville Beach.

—Yesterday afternoon's Fayetteville Observer: "Mr. E. J. Hale, Jr., managing editor of The Observer, went to Wrightsville Beach yesterday afternoon, to attend the State Good Roads Convention."

—Among the enthusiastic good roads disciples here yesterday for the convention at Wrightsville Beach were Editor D. S. Hines, of the Whitesville News-Reporter; Mr. K. B. Council, the man who decorated everybody at the convention with a red hat proclaiming Columbus the pioneer in road building; Sheriff J. T. Best, of Columbus, and many others from that fine old county which built the first link of the Wilmington-Charlotte highway.

—Mr. J. D. McFadden, the clever traveling representative of the Keystone Type Foundry, Atlanta, arrived yesterday, accompanied by Mrs. McFadden, who will spend a few days in the city and at the beach. They are traveling by auto and are enjoying the companionship and the novelty of good, bad and indifferent roads all over the territory, this being Mrs. McFadden's first visit to this coastal section of the country.

—Among the arrivals at The Orton yesterday were: J. N. Rafferty, Rocky Mount; Messrs. T. S. Parker, J. R. Moss and J. D. Love, Albemarle; E. P. McBane, Reidsville; R. D. Johnson Warsaw; Messrs. A. N. James and A. W. Moore, Mt. Pleasant; Messrs. S. E. Cover, J. W. Brown and D. S. Russell, Andrews; M. Formyduvall, Whiteville; Miss Mary E. Paige and Mrs. E. R. Jones, Aberdeen; J. J. Best, B. Moore and Misses Geneva Moore and Lila Herring, Lumberton; B. F. Baldwin, Whiteville; T. L. Craig, Gastonia; Marshall Williams, Faison; Mrs. M. B. McAuley, Acme; Mrs. O. S. Clark, Clarkton; Miss Mary Keister, Lumberton; Messrs. E. J. Britt, C. V. Brown and S. F. Caldwell, Lumberton; W. F. Smith, Chadbourn; A. H. Powell, Fair Bluff; and J. J. McKay, Bolivia.

The "Lake" Excursion.

The celebration this yeaer will take place on Thursday, July 6th; and the special train will be operated, leaving Wilmington at 8 A. M., and returning, leave Waccamaw at 7:30 P. M. The fare for the round trip is only 75 cents.

A Clear Skin is only a part of beauty; but it is a part. Every lady may have it, and easily, too. Just apply Hagan's MAGNOLIA BALM (Liquid Powder) It freshens and beautifies at once. Heals Sunburn and overcomes Tan. 75 cents at Druggists or by mail. Sample Free. Lyon Manufact'ng Co., 42 South Fifth Street, Brooklyn, N. Y.

NEW ARRIVAL

Bath Suits, Caps and Shoes

STORE CLOSES 1 O'CLOCK TODAY.

A. D. Brown

Wooltex Wash Skirts.

Wrightsville Beach

Mr. and Mrs. W. M. Bellamy came down to the beach yesterday to spend the summer at the Hanover Inn.

Among the arrivals at the Hanover Inn yesterday were C. B. Townsend, Lumberton; A. W. Moose, Mt. Pleasant; J. H. Reinhardt, Concord.

Maj. W. A. Graham, Commissioner of Agriculture for North Carolina, arrived yesterday and is spending a few days at the Hanover Inn.

The fishing outside is said to have greatly improved and some splendid catches have been reported this week. Fishing is getting to be quite popular on the beach now.

Rev. W. I. Hughes, of Cabarrus county, is one of the first arrivals for the Baptist Seaside Assembly, which will be in session at the beach next week. He is a guest at the Hanover Inn.

Wrightsville Beach has had some mighty fine parades in days gone by, but it is expected that the grand illuminated spectacular procession this evening from the Oceanic Hotel to Lumina will be all that its name implies and that it will really and truly be a wonderful dispay. It starts at 8 o'clock. There will be an abundance of enthusiasm and interest.

Among the arrivals at the Seashore hotel yesterday were the following: J. G. Foushee, Miss Sue Foushee, John M. Foushee and Mrs. R. M. Rees, of Greensboro; J. I. Neal, Sanford; Joseph Prevatt, Lumberton; F. W. Donnelly, Greensboro; S. B. Taylor, Mt. Gilead; C. C. Sikse, Monroe; J. C. Lyon, Lillington; B. W. Townsend, Red Springs; Geo. L. Jones, E. S. Shell, N. B. Grantham, Jas. A. Wellons, W. B. Wellons, Smithfield; C. M. Hall, Cooper; H. Steinmetz, Raleigh; J. F. Highsmith and E. J. Hall, Jr., Fayetteville; B. R. Britton, Roseboro; C. D. McGowan, Willard; E. L. Heavner, P. O. Skinner, S. Wolf, William Ivey, Bruce Shankle, James Howard, Will Colton, John Smith, P. R. Moore, J. E. Long, O. J. Stokes, T. C. Blalock, L. C. Parker, J. T. Russell, R. H. Osborne and O. D. Morris, Albemarle; J. A. Porter, Greensboro; P. A. McCormick and N. T. McLean, Rowland; C. B. Cunningham, L. E. Huggins, P. P. Plyler and E. E. Marsh, Marshville.

BRUNSWICK SCHOOL FIGURES.

Value of Property, Number of Persons of School Age, Etc.

(Special Star Correspondence.)

Southport, N. C., June 22.—The summary of the school year for Brunswick county, 1915-16, just compiled by M. C. Guthrie, county superintendent of public instruction, presents some interesting and, from an educational viewpoint, instructive figures.

The value of the school property, all kinds, is, white, $25,425; colored, $3,600. The great difference of these properties is due to the fact that the patrons and friends of white schools contribute liberally, that is, one-half being given to secure State aid on the other half, while it is found that the leaders of the colored race have a tendency to give first attention to the building of lodges and churches rather than to schools.

There are 74 districts in the county, 47 white, 27 colored, all being taught. There is an average term of 120 days in all schools. There are 29 libraries, with 1,624 volumes. Teachers employed, 65 white, 37 colored; of these 46 white, and 13 colored, are natives of Brunswick.

The school census for 1915 of this county shows, male and female 6 to 21 years, white 3,006; colored, 2,088. The school enrollment, same ages, white, 2,383; colored, 1,617; a pretty high per cent. From the age 8 to 12, the enrollment is, white, 847; colored, 648. The average attendance in the first period above was, white, 1,695; colored, 1,179. From 8 to 12, white, 896; colored, 545.

GODWIN CLUB AT DUNN

Enthusiastic Democratic Supporters Determined to Win July 1.

(Special Star Telegram).

Dunn, N. C., June 22.—With great enthusiasm a Godwin club was organized today in Hon. H. L. Godwin's home town for the purpose of furthering his candidacy to succeed himself as member of Congress in the second primary, to be held in this district on Saturday, July 1st.

His friends at home, being practically every Democratic voter in Harnett county, are more determined and active in his behalf than ever before; first, because they recognize in the voice of the first primary that he is the overwhelming choice of the Democratic voters of the district, he having received within 557 votes of a majority over his four opponents and having received a plurality of more than 3,300 votes over his present opponent, and, second, because of the fact that he himself has felt it his duty on account of the critical Mexican situation to return to his post in Washington, thus leaving his candidacy entirely in the hands of his friends in the district.

It is confidently predicted by his friends who have organized this club that the Harnett Democracy will on the first day of July cast a more nearly unanimous vote than it has ever done in a primary and that it will be closely seconded by other counties in the district. J. C. C.

MAGISTRATES OF VERDUN.

They Take Turns in Helping the Military Authorities.

(Bar-Le-Duc (France) Correspondence)

The sittings of the municipal council of Verdun continue to be held at Bar-le-Duc, and it has now been arranged that the magistrates shall take duty in turn in Verdun, putting themselves at the disposal of the military authorities.

M. Marlange was the first magistrate to take this duty. He remained for a fortnight, working in the citadel, to which the offices of the mayoralty have been transferred. He reports that the population of the town is entirely military, all the civilians having been sent away under the superintendent of M. Grillon, the sub-prefect, assisted by the municipality. Only groups of territorials are to be seen in the streets, occupying their scanty leisure in propping up falling houses and collecting the scattered stones. Dogs which have been left behind by the civilians have been, for the most part, adopted by the soldiers; the cats remain faithful to the hearths of their old homes, picking up a living as they can.

The magistrate in residence assists the military authorities in obtaining necessary supplies. He knows where to find stocks of clothing, porvisions, material of all sorts, which remain in the shops and are now at his disposal. The military officer states his requirements, signs a voucher, and hands it to the mayoralty as in normal times. The magistrate makes a record and goes with the officer to get what is required

M. Marlange states that during his term of residence in Verdun the enemy's shells fell on the town only at long intervals.

HARMONY CONFERENCES ARE BEING CONTINUED

Progressive Leaders Confer With Hughes and Roosevelt.

The Colonel, It Is Announced Will State His Attitude Before Progressive National Committee Next Monday.

New York, June 22.—Progressive and Republican leaders working for harmony between the parties continued their conferences today with Charles E. Hughes at his temporary headquarters here. Two of the nominee's callers, James R. Garfield, of Ohio, a Progressive leader, and Frank B. Kellogg, of Minnesota, called on Colonel Roosevelt after seeing Mr. Hughes.

No word was forthcoming as to what, if any, progress had been made. Colonel Roosevelt's attitude, Mr. Hughes was told, will be stated at the Progressive National Committee at Chicago next Monday. The organization sub-committee of the Republican National Committee, which will appoint a national chairman, probably will meet soon thereafter.

Major General Leonard Wood, suggested by Mr. Roosevelt as a compromise candidate for the Republican presidential nomination, spent fifteen minutes with Mr. Hughes and said on leaving that they had discussed personal affairs. Oscar S. Strauss, candidate for governor of New York in 1912 on the Progressive ticket, paid a second visit to the Hughes headquarters but declined to discuss the situation.

Mr. Hughes expects to continue conferences with political leaders tomorrow and will leave Saturday afternoon for his summer home at Bridgehampton, N. Y.

ROOSEVELT CONFERS WITH LEADERS OF BOTH PARTIES

New York, June 22.—Theodore Roosevelt, who motored to New York today from Oyster Bay, saw and conferred with many Progressive and Republican leaders, including Frank B. Kellogg, of Minnesota; James R. Garfield, of Ohio; Matthew Hale, of Boston; George W. Perkins, Hamilton Fish and Harry S. Josepha, of Utah. Colonel Roosevelt returned to Oyster Bay late today.

Mr. Kellogg, who defeated Senator Clapp, of Minnesota, for the Republican senatorial nomination in Minnesota recently, was known as "The Trust Buster" of the last Republican administration. He called on Charles E. Hughes, Republican nominee, before seeing Colonel Roosevelt, but declined to state the nature of his conversation with either. He declared, however, that he believed there would be "perfect harmony" in the forthcoming campaign.

Guy Emerson and T. C. Desmond, secretary and treasurer respectively, of the Roosevelt Non-Partisan League, also called.

They issued the following statement: "The 75,000 members of the Roosevelt Non-Partisan League joined the league of Americanism as personified by Theodore Roosevelt and, inasmuch as Colonel Roosevelt was not named by the Republican National Convention, the members of the league are, of course, under no obligations and they are free to follow their own individual convictions in regard to the presidency."

Emerson and Desmond, in their statement, added, however, that they personally intended to support Mr. Hughes and that they intended to use their influence to enlist other members of the league to work for his election.

LOCAL DELEGATES WINNERS

Of Tug-of-War Contest, From Visitors at Beach—The List of Winners of Other Athletic Events.

Before a crowd of more than 400 delegates and visitors the athletic feats, races and tug-of-war were staged yesterday afternoon at 5 o'clock in front of the Oceanic Hotel by the Y. M. C. A. boys and certain of the delegates of the North Carolina Good Roads Convention.

One of the most interesting features of the contest was the tug-of-war between the New Hanover delegates and a tea mrperesenting the visitors. There were seven men to a side, and the first pull lasted about one minute, and the second lasting only a few seconds. Both were won by the local delegates, who in the first tug out-pulled the visitors some two feet. The New Hanover men got the jump on the visitors in the second tug and pulled them off their feet with a rush.

The winners of the other contests were as follows: 50-yard dash for boys, George Jones, first; Hooper Johnson, second; and M. L. Clifton, third; 50-yard dash for delegates, Messrs L. Bethune, first; E. M. Price, second; and Joe Little, third.

Wheel-barrow race for boys, George Jones and Herbert Johnson, first; and E. Sternberker and J. Wells, second.

Running broad jump for delegates, Messrs. E. Merritt; first, 15 feet 11 in.; J. Barker, second, 15 feet and 9 in.; L. Bethune, third, 15 feet and 5 in.

Sack race for boys, Hooper Johnson, first; George Jones, second; and H. Sternberger, third.

LOCAL DOTS

—Members of the Wilmington Rotary Club are requested to take the 6:30 o'clock car tonight for Wightsville Beach to take part in the Illuminated Parade.

—The Star has with the compliments of Mr. A. H. High, of Winter Park, specimens of some very fine plums which were grown on his place, six of them weighing a pound.

—At yesterday morning's session of court, only one defendant, John Williams, colored, faced Recorder Empie. He was found guilty of reckless riding and taxed with the costs.

—Yesterday's Greensboro News: "Commissioner of Public Works J. Giles Foushee left yesterday morning in his automobile for Wilminton to attend the annual convention of the North Carolina Good Roads Association."

Avoids Breakfast Cooking—

New Post Toasties are ready to eat direct from the package. They have a fine new flavour—self-developed by a new patented process. It's the rare, true flavour of prime, white Indian corn itself, and these **New Toasties** are the first corn flakes that do not depend on cream and sugar for palatability.

The proof of this superior flavour is found by eating some from the package dry. They're deliciously good that way, but of course are usually served with cream or good milk.

Examine the **New Post Toasties** flakes. The quick, fierce heat of the new process of manufacture, not only raises the distinguishing little bubbles on each flake, but gives a body and firmness that makes the **New Toasties** a more substantial food than ordinary "corn flakes."

New Post Toasties do not "chaff" or crumble in the package, and they don't mush down when cream is added. They come to you untouched by hand, and in moisture-proof packages that preserve their delightful oven-crispness until served at your table.

Well worth trying—these

New Post Toasites

Sold by Grocers everywhere.

SCHOOLS AND COLLEGES

PEACE INSTITUTE FOR YOUNG WOMEN

AN ideal Christian Home School. Preparatory and Collegiate courses. Art, Expression, Physical Culture, Pedagogy, Domestic Science, Business, etc. Conservatory of Music. High standard maintained by large staff of experienced, college trained instructors. Takes only 100 boarders and teaches the individual. Unsurpassed health record. Brick buildings. Steam heat. Electric lights. Excellent table. Good Gymnasium. Park-like campus. Concerts, lectures, tennis, basketball. Write for our catalog before selecting the college for your daughter.

MISS MARY OWEN GRAHAM, President. Raleigh, N. C.

EAST - CAROLINA - TEACHERS - TRAINING - SCHOOL

A State school to train teachers for the public schools of North Carolina. Every energy is directed to this one purpose. Tuition free to all who agree to teach. Fall Term begins September 26, 1916.

For catalogue and other information address.

MANY FEATURES FOR THOUSAND DELEGATES TO ROAD CONVENTION

(Continued From Page One.)

they have them, signifying what place they are from.

8. The Rotary Club will act as marshals. The members of this club will be requested, as far as possible, to wear blue suits and straw hats, each member wearing his Rotary button, and carrying a cane. They will also be asked to wear white slippers.

After arrival at Lumina the W. L. I. will probably give some fancy drill work on Lumina floor, and any delegation having stunts will be given an opportunity to take the floor.

A souvenir dance will be held and suitable prizes given. Japanese lanterns and parasols will be distributed at the Oceanic hotel to all who participate in the parade.

The chief marshal will be Mr. Roger Moore, president of the Rotary Club, assisted by Mr. T. R. Ames.

It is desired that this should be the greatest parade which has ever taken place at Wrightsville Beach.

The members of the organizations who participate will leave Front and Princess streets on special train at 6:50.

The Evening Session.

Easily the most pleasing feature of last night's session was the singing of Miss Anna Graham Harris, daughter of Mr. and Mrs. J. F. Harris, of Wilmington, who rendered several solos during the early part of the session. Her numbers included "The Eagle," "Contentment," and "O don fatale," and for encores she sang "The Elf Man," and "The Rosary." Miss Harris is one of the most gifted sopranos it has been the pleasure of Wilmington people to hear in years, and her efforts at the convention met with the deep appreciation of all who heard her. Mr. William G. Robertson, organist at St. James' church, Wilmington, was the accompanist.

The first address of the evening was by Hon. O. L. Evans, president of the Virginia Road Builders' Association, who discussed the importance of State Highways and told something of the experiences of his own state in building and maintaining such roads.

Ought to Help Port.

Mr. G. Herbert Smith, of Acme and Wilmington, who had for his subject the importance of State Highways and their bearing upon North Carolina's gateway port, made one of the most interesting and eloquent speeches of the convention. He declared that he wished to emphasize to North Carolina the importance of having all State highways lead to Wilmington, because thereby will be built up a great port—something that the State is badly in need of. North Carolina has, he said, in the Cape Fear river from Wilmington to Southport, one of the finest harbors on the Atlantic Seaboard. Here are 30 miles of river—60 miles of water front, with hundreds of acres of ideal factory sites, and thousands and thousands of acres of back country land filled with raw material for numberless factories and industries.

He enumerated some of the opportunities that lie dormant in this section, awaiting development. Among those mentioned were a cement plant, to utilize the limestone of the Northeast river and the blue marl of the Cape Fear; an iron mill to utilize the iron pyrites from the five or six fertilizer factories of this section; a pork packing plant (already projected) to furnish a market for, and encouraging live stock raising throughout Eastern North Carolina; woodworking plants of various kinds to utilize the many woods that are so plentiful in the swamps and hardwood ridges of this whole territory; a paper pulp mill, to utilize the tupelo gum and short leaf pine; and any number of other untouched possibilities.

Mr. Smith remarked that he could remember the time when there were two or more steamer lines between Wilmington and New York, while now there is only one. The port is not what it ought to be, he said, and the fault does not lie wholly at the door of the Wilmington people. The people of North Carolina, he thought, were also largely responsible, for they were not making proper use of their port.

Modern Ferry Needed.

Mr. Smith incidentally took a rap at the Market street ferry in Wilmington, declaring it to be the greatest curiosi- in North Carolina. He hoped, he said, by another year to see it replaced by a modern bridge connecting New Hanover and Brunswick counties. His reference to this brought prolonged applause from the Brunswick county delegation.

He paid high tribute to Dr. James Sprunt and Mr. Hugh MacRae, declaring that it was such men—men with a vision—who are bringing about the bigger and better possibilities of which so many have dreamed for so long, and in closing he predicted a newer and brighter day for Wilmington and its adjacent territory—a day that will usher in the realization of many a dream of development and progress.

He closed by inviting the convention to stand and sing one verse of "Carolina," and the entire body joined in with right good will.

Reports on Highways.

The final feature of last night's session was the reports of the committees on the various North Carolina Highways. Senator Rivers D. Johnson, of Warsaw, and Hon. Geo. B. Elliott, of Wilmington, made the report for the Wilmington-Goldsboro Highway; Hon. J. M. Vann, of Monroe, reported for the Wilmington-Charlotte Highway; Maj. Geo. E. Butler, of Clinton, reported on the Wilmington-Fayettevills Highway; Mr. Leonard Tufts, of Pinehurst, on the Capital Highway; John. Jas. A. Gray, of Winston-Salem, on the Winston-Salem-Bristol, Tenn., Highway, and Mr. W. L. Mann, on the Charlotte-Pinehurst-Raleigh Highway.

All of the committees reported progress on these highways, and a splendid outlook for results during the coming year. Senator Johnson reported that the Goldsboro-Wilmington Highway was in fair shape for travel with the exception of one stretch of about 13 miles of sand road. Mr. Vann reported the Charlotte-Wilmington Highway as a series of links of very good road but still lacking through connection. Union and Anson counties need to complete their part of this highway before it can be in really fair shape. Major Butler reported progress in the plans for the Wilmington-Fayetteville Highway, with prospects for some good work toward the realization of these plans in the near future. Mr. Tufts reported that the Capital highway would be complete ere another winter. The worst stretch, that between Fredericksburg, Va., and Washington, will be improved before that time, he said. Mr. Gray reported the Winston-Salem-Bristol highway in fair shape except for one line. Mr. Mann reported that the Charlotte-Pinehurst-Raleigh Highway is as yet mostly a project, but one that bears all promise of being carried out to a successful conclusion.

The Afternoon Session.

President Varner called the afternoon session of the convention to order yesterday at 2:45 and introduced Chairman W. A. McGirt, of the New Hanover Board of Commissioners, who presided.

The first talk of the afternoon was made by Dr. Joseph Hyde Pratt, State Geologist and secretary of the Good Roads Association, who made a brief but interesting talk on the economic use of convicts in road construction. In beginning his remarks Dr. Pratt emphasized what he considered should be the attitude of the State and county toward the unfortunates who are convicted and sentenced for crime, and, he observed, what he had to say applied to black as well as white.

In the first place, he said, the State and county must consider their prisoners as human beings—as people who will some day again become members of society, and with this in mind it should be the aim to aid prisoners to finish their term better men and women than when they began to serve it. In other words, all treatment of prisoners should be corrective, and not vindictive, and everything done by the State and county in treating the prisoners should be done with a view of impressing this attitude upon them. The State and county, he observed, was responsible for the physical and moral welfare of the convicts while in its keeping.

Aside from all other phases of the matter, Dr. Pratt observed, such an attitude in handling prisoners plays an important part in the economic aspect of working them for the benefit of the State.

Convict Labor Valuable.

He spoke briefly of the experiences of several counties in handling small groups of convicts on the roads by means of the honor system, whereby they had been able to work the men to good advantage without the expense of hiring guards. The experiences of many of our counties, he said, showed that it was economical to build roads with convict labor. As an instance of what such labor is considered worth, he pointed out that the American Aluminum Company, building the big plant on the narrows of the Yadkin river, had offered the State $2 a day per man for as many as 500 convicts, when prevailing wages in that section were only $1.25. Dr. Pratt stated that he did not approve hiring out the State's convicts to private concerns and corporations, and only cited this instance to show that as a cold-blooded business proposition, a big corporation thought it economical to hire convict labor at an increased wage over that prevailing.

Dr. Pratt closed by declaring that he wanted to see all of North Carolina's convicts worked on North Carolina roads. He suggested that in counties where there are only a limited number of convicts, it might be well for two or more counties to pool issues and maintain one convict camp, bearing the expense proportionately and working the gang in one county for a given time, and then in another.

Forsyth's Concrete Roads.

Mr. James Gray, chairman of the road commission of Forsyth county, told the convention of the concrete roads recently adopted by his county for the roads subject to heavy traffic conditions and on the approaches to the principal city, Winston-Salem. This step, he said, followed the discovery that the growing traffic made both water bound and bituminous bound macadam unsatisfactory. He stated that the concrete roads are expensive if let out to a contractor, but if built with convict labor, can be constructed economically. A Portland cement association, he said, furnished a trained inspector free for such work, and it was only necessary to hire an experienced superintendent to direct the convict forces in building the road. A concrete road 16 and in some instances 20 feet wide, is built, with a hand-clay roadway on each side. This type of road, he said, had been in use on some of Forsyth's main highways for some time, and it is proving very satisfactory, both from the standpoint of its permanency and its freedom from the dust nuisance.

The Health of Convicts.

Dr. Chas. T. Nesbitt, superintendent of health for New Hanover county, made a very interesting address on the care of convicts from the standpoint of health and sanitation. In beginning he observed that he had always thought the methods of punishment sanctioned by our civilization are wrong, in that any punishment that humiliates a man only served to pile up his grudge against society. The aim should be to turn him free after serving his sentence a better man both physically and morally.

Dr. Nesbitt analyzed types furnishing most of the criminal element, and pointed out that the lack o fcontrol is always in a large measure responsible for the crimes they commit. Lacking in self control, they also have never submitted to social control, and when they come into the prison, they must be subjected to a discipline that is just and firm.

At least 99 out of 100 convicts, he said, came into the camps deficient physically, and this condition required correction also. They must be broken from their old habits, educated up from vermin and vicious habits and made to appreciate the benefits of cleanliness and right living. He told of the methods followed in treating the New Hanover convicts and stated that it usually required two or three weeks to put a convict into condition for efficient service on the roads.

He also mentioned that the dietary in most of the convict camps is deficient—most often containing too many sweets and fats and not enough proteids. This had been overcome in the New Hanover camps, he said, by the substitution of a ration of dry salt codfish at least three times a week in place of the salt meat. Fresh meat is also served once or more a week and fresh fish once a week when possible.

Favors Indeterminate Sentence.

Before closing Dr. Nesbitt pointed out one feature of the convict question which, he declared, seemed to him to merit considerable thought.

This was the matter of the length of sentence. He told how many of the convicts in New Hanover are "repeaters," hardly completing one term before they are back for another. Such cases, when freed from the restraining influences of the camp and prison, relapse into their old habits, and when a few weeks later they are sent back to the roads to begin another sentence, they are in the same deplorable physical condition as when they first went there. Hence, all the effort of putting them back into shape must be gone through with again. Legislation to permit an indeterminate sentence, or a sentence twice as long for the second conviction as for the first, and increasing in length for each additional conviction, ought to remedy this phase of the problem, Dr. Nesbitt thought.

Dr. Nesbitt also touched briefly on the matter of sanitation in prison camps, stating that it usually presented quite a difficult problem, and could only be handled by taking into consideration the conditions peculiar to each locality.

Pictures Are Presented.

Major Jos. W. Little made the presentation of handsome framed group pictures of New Hanover's good roads to the delegations from Pender, Onslow, Sampson, Duplin, Bladen, Columbus and Brunswick counties. These handsome groups, each containing seven large photographic reproductions of scenes on New Hanover's improved highways, were given by the Wilmington Highway Association, and Major Little, in presenting the pictures on behalf of the association, congratulated each of the neighboring counties on the interest and progress it has made in road building, and expressed the hope that the pictures would be a source of inspiration for still further effort in behalf of improved roads.

The delegations from the receiving counties cheered the presentations, and mention of the Wilmington-Fayetteville, Wilmington-Goldsboro and Wilmington-Charlotte highways evoked storms of applause, though probably the biggest demonstration came from the Brunswick delegation when Major Little, in presenting the picture to that county, spoke of the need for a modern bridge across the Cape Fear, connecting New Hanover and Brunswick.

The pictures will be hung in the court houses of the different counties.

"Far West" Represented.

Dr. Pratt, secretary of the Association, announced at the afternoon session that nearly 900 delegates had registered, and that 61 counties were represented. Cherokee, the extreme western county represented, has eight delegates, and Swain, the next "far western" county has six delegates in attendance.

Mr. W. D. MacMillan, a member of the New Hanover Board of Commissioners and president of the Wilmington Highway Association, made a short but interesting talk on the automobile tax and the use it should be put to. He advocated legislation to enable all funds raised through the automobile tax to be expended upon the roads of the State through the State Highway Commission, and expressed the hope that the Association will lend its support to a campaign to secure such legislation from the next Legislature. He mentioned that there are more than 25,000 automobile owners in North Carolina today, and that the money raised from the license tax on these machines would amount to $125,000.

Dr. Pratt, in a short discussion of State highways, voiced the opinion that if automobiles are taxed because they are hard on the roads, then a special tax should be levied upon traction engines, which do far more damage to the highways than automobiles.

He urged the delegates from this section of the State to work for both the Wilmington-Fayetteville and the Wilmington-Goldsboro highway, and not be content with ont highway to serve all three cities.

A resolution offered by the Wilkes delegation, calling upon wagon manufacturers to discontinue the manufacture of wagons with tires less than three inches wide, was referred to the committee on resolutions.

During the afternoon the delegates gathered on the steps and in front of the convention hall and were photographed.

200 Cars in Parade.

With 200 automobiles mobilized in the vicinity of Third and Princess streets a few minutes after 10 o'clock yesterday morning approximately 1,000 delegates and a goodly number of local good roads enthusiasts as guests of the Wilmington Highway Association started on an automobile spectacular parade through the principal streets of the city as a preliminary to a tour of inspection of New Hanover county's splendid system of model highways. Before the tour was ended about 30 miles of the county's improved roads had been covered, and many compliments were paid by the delegates to the fine, smooth boulevards which render every part of the county accessible to the motorist. They were also astonished at their freedom from dust in view of the number of machines in line.

The line march followed by the procession of automobiles in the parade was down Third to Red Cross street, to Front, up Front to Castle, to Fifth and Market, thence to East Wilmington and around the East Wilmington "loop" and through Delgado and around the big "loop," to Sunset park and thence back to Wilmington. Owing to the lack of time the tour of inspection did not include the Castle Haynes road, as had been originally planned.

The parade was the biggest of its kind probably ever held in New Hanover county. From the time it started down Third street it was watched by thousands of people who had lined the sidewalks or who suspended their work in the offices and business establishments to watch the long line of machines and read banners with which they were bedecked. Many cars were decked out in the national colors in addition to their other banners. A noticeable feature was the orderly and smooth manner in which they were run. Fifteen miles an hour was the limit drivers were requested to observe. Failure to do this might have resulted in a serious accident on account of the large number of machines. As it was, there was no accident of any kind to mar the success of the affair.

Witness Demonstration.

The first stop was at Sunset Park. Here the delegates were lined up along a stretch of highway in need of repair which had been selected for a demonstration of treatment of waterbound macadam with tarvia and granite chips. After a wait of about two minutes, the big 1,000-gallon tank truck arrived on the scene and with the puling of a lever an even stream of hot tarvia was poured out of the sprinkling apparatus, giving the road a uniform coating of the waterproof binder. Negro laborers stationed along the highway with long shovels at piles of half-inch granite chips, completed the operation with the exception ot the rolling by scattering the finely crushed rock in the tarvia. This demonstration proved very interesting to the delegates, who expressed surprise at the quickness with which a road could be repaired in this manner. Some of them expressed the opinion that before long a machine spreader will be invented which will do away with the shovel work entirely. The demonstration was given by Mr. W. H. Tourison, of the Barrett Company, of Philadelphia.

The second stop was at the plant of the Carolina Metal Products Company at shortly after 12 o'clock noon. Here a fine luncheon was served the hungry and thirsty delegates by Mr. Geo. P. Galvin, manager of the plant. Manager Galvin's feast was most appetizing, and at its conclusion his guests gave three rousing cheers for their genial host. Of much interest to the delegates was the fine display of road culverts, which were arranged for their benefit at the plant of the Metal Products Company. There was plenty to eat and drink for every one despite the fact that the number of the guests would have taxed the capacity of a big hotel's culinary department.

Out in the suburban districts there were almost as many spectators as in the city, and when the country was reached people working in the fields along the highways completely suspended their gardening and farming operations to watch the two-mile-long procession of machines whirl past.

Pender Well Represented.

Thanks to the fine missionary work of Editor John T. Bland, Jr., who, by the way is secretary of the Wilmington-Fayetteville Highway Association, recently organized at Burgaw, Pender county had a fine representation at the convention yesterday, it being estimated that as many as 25 or 30 automobiles came in during the day, returning in the evening. The various machines were decked with appropriate banners in the general cause of good roads and a fine day was had for the trip. The Chronicle, in speaking of the tour from Pender, outlining the plans, which were carried out ,says:

"A plan has been adopted by local members of the Wilmington-Fayetteville Highway Association to have the delegates from all sections of the county to meet in their automobiles at the Castle Haynes bridge, at about 8:45 o'clock A. M., and from there the delegation will proceed to Wilmington, where they will take part in the inspection of New Hanover's fine system of roads, which begins from the City Hall at 10 o'clock A. M.

"Everybody in the county is cordially invited to attend the Good Roads meeting, and it is especially desired to get as many automobiles as possible to go on Thursday, carrying delegates from every section of Pender.

"Among those who will attend, and whose automobiles will be used, are: From Burgaw, J. F. Johnson, J. T. Bland, R. Y. Corbett, W. I. Daniel, K. D. Futch, W. B. McNeal, S. Van Bowen, Miss Mabel Bowen, W. D. Croom, R. T. Murray, C. E. McCullen, W. C. Myers, T. F. Johnson, Bailey Pierce, Rev. E. L. Weston, Rev. Liston Harrell, Miss Maggie Williams, and possibly others.

"Among those from Watha who will attend the convention on Thursday are A. K. Parsons, G. L. Rivenbark, J. G. Blake, Fitzhugh Lee, as well as others.

"From Atkinson, Dr. J. T. Hoggard, Messrs. E. A. Hawes, Jr., P. S. Carr, Smith and Corbett, and possibly others, will go in their automobiles. Mr. E. W. Godwin, Jr., of Point Caswell will also attend.

"From Rocky Point, Messrs. T. J. Armstrong, W. H. Malpass, Howard Peden, Dr. R. J. Williams, and Clarence Carr will go by automobile.

"From Long Creek, Messrs. J. E. Henry, N. H. Lockhart, W. T. Simpson, and W. T. Harrelson will all go in their machines."

Bladen Delegation.

Bladen county was not one whit behind the others in its representation here for the convention, a great many having come over by auto yesterday for the convention. The Bladen Journal, in speaking of the attendance, says:

"The following are among the Bladen citizens who started with their cars today for the Good Roads Convention at Wrightsville, each taking so many as their cars would carry, including the county commissioners, many overseers and others:

"G. W. Hester, D. M. Smith, J. M. Smith, X. Brown, N. A. Currie, C. S. Clark, E. L. Curtis, O. L. CSlark, C. A. Priest, Temple Stanton, Lee G. Priest, Charlie Duncan, Lloyd Lennon, E. S. Clark, G. Horn and D. L. Blue."

CONVENTION SIDELIGHTS.

Solicitor Homer Lyon and former Mayor Irvin B. Tucker, of Whiteville, came over yesterday to attend the convention.

Former Mayor Fleet W. Dunlap, of Wadesboro, was a guest yesterday at the Seashore Hotel. He came down to attend the Good Roads Convention.

Chairman R. E. L. Brown, of the Columbus county Board of Commissioners, arrived last night to attend the convention. He has long been an enthusiastic booster of good roads in his county.

Col. Robert Stride was one of a large number of people from Southport in Wilmington yesterday for the Good Roads convention. Sheriff Robinson was another of the "jolly" bunch.

From Avery county, far up in the mountains, Mr. P. M. Brown, member of the board of commissioners, came down to the beach to attend the Good Roads Convention and to enjoy the delightful sea breezes.

Mr. F. G. Hines, superintendent of roads of Martin county, is one of the enthusiastic delegates to the convention. He brought along a splendid assortment of photographs showing what Martin is doing in road building. They are being built plenty wide enough for all future needs.

Two hundred people came in on the special excursion train from Fair Bluff and intermediate points yesterday to attend the convention. They arrived in the city about 11 o'clock and left last night at 8 o'clock. They were immensely pleased with the Good Roads meeting.

Two dozen enthusiastic road boosters from Albemarle, in Stanly county, arrived Wednesday night to attend the Good Roads Convention, having made the trip in automobiles. They had fine success in negotiating the roads. They had their cars appropriately branded with banners.

Yesterday's Fayetteville Observer says: "The Fayetteville Chamber of Commerce yesterday completed the marking of the Wilmington-Fayetteville Highway route with the white and yellow painted sign boards. The party doing the work was composed of President T. H. Sutton, L. Gentry, L. N. Whitted and L. C. Adams."

Mr. John C. McAllister, superintendent of streets of Fayetteville, is responsible for that big banner which stretches across Second street in Wilmington at the intersection with Princess or at least he had it put up there. Painted in letters big enough to be read for some half a mile or so are the words, "Fayetteville is for good roads and streets." Nobody is prepared to dispute that fact and the big delegation down for the convention have given ample testimony to their opinions about the matter.

Col. T. L. Craig, the live and energetic president of the Gastonia Chamber of Commerce and a prominent business man of Piedmont North Carolina, didn't get to Wilmington until yesterday to attend the North Carolina Good Roads Convention, but he hadn't been in town a half hour before he was scattering around literature, giving full information about Gaston county and its progressive county seat, Gastonia. "The Textile Center of North Carolina," is the appropriate description of this city. Colonel Craig was accompanied by Mr. W. R. Ware, superintendent of roads in Gaston county.

Mr. Kinchen B. Council, a member of the Board of Commissioners of Columbus county, received the photographs of New Hanover county, for Columbus county which were presented by Major Joseph W. Little in behalf of the Wilmington Highways Association to all the neighboring counties to be placed in the different court houses. Major Little declared that Columbus had made more progress the last two years towards improving her roads than any other county in the State. He spoke in the highest praise of what the citizens in that county have done. Mr. Council responded in grateful words of appreciation for the tribute of praise that had been accorded "Old Columbus." Columbus was in much evidence yesterday at the convention. Five hundred red "helmets" with the inscription on them, "Columbus is for Good Roads" were distributed by Mr. Council among the visitors and made a very effective advertisement.

SOUTHERN FURNITURE DEALERS ELECT OFFICERS AND ADJOURN

To See That Employes Wh oServe Uncle Sam Do Not Suffer Financially.

(Special Star Telegram).

Asheville, N. C., June 22.—With the election of officers for the coming year and the selection of Danville, Va., as the next meeting place, the fourth annual convention of the Southern Retail Furniture Dealers Association came to an end today at 1 o'clock. The officers for next year are as follows:

President, W. M. Maters, Florence, S. C.; vice-president, W. A. Bullock, Rocky Mount, N. C.; treasurer, W. L. Bel, Concord, N. C.; secretary, J. A. Gilmore, Charlottesville, Va; directors, for three years, E. C. Kent, ePtersburg, Va.; H. J. Southers, Greenville, S. C.; C. W. Parker, Charlotte, N. C.; J. M. Vanmetre, Columbus, S. C.

The morning session opened with a general discussion of store management. There were short addresses by Miss Ethel Davis Seal, of Philadelphia, and F. E. Mahoney, of Chattanooga, Tenn. J. H. Ryan, secretary of the Southern Furniture Manufacturers' Association, addressed the meeting in the absence of Fred N. Tate, of High Point, who was on the programme.

Resolutions were adopted declaring it the sense of the meeting that furniture stores and manufacturers pay their men ordered to the front the difference between government pay and regular salary so that they shall not suffer financial loss by serving their country. The delegaes were guests today on an automobile ride and tonight attended a reception given by the local furniture dealers.

Visitors.

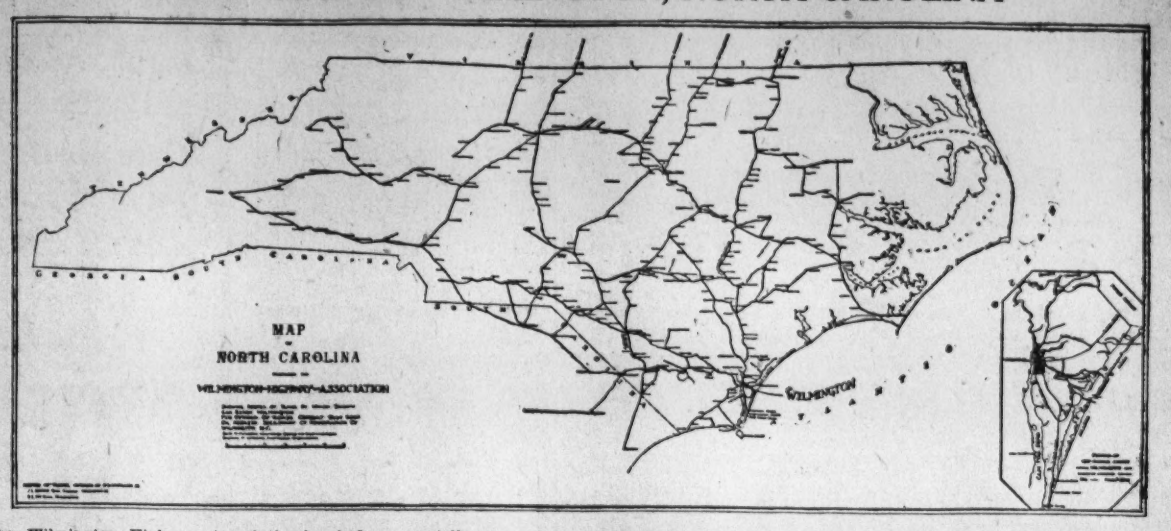
ROAD MAP TO WILMINGTON, NORTH CAROLINA



The Wilmington Highway Association has had an especially prepared map of North Carolina made to assist visitors in driving their automobiles to the annual convention of the North Carolina Good Roads Association to be held at Wrightsville Beach, June 21, 22, and 23. Copies of the map can be had by anyone by writing to the Secretary of the Wilmington Highway Association, Wilmington, N. C.

DISPATCH GUARDSMEN WHEN 5,000 HAVE BEEN MUSTERED

Orders Sent to Commanders of Central and Western Departments.

Washington, June 22. — Orders went from the War Department tonight to General Barry, at Chicago, commanding the Central Department, and General Bell, at San Francisco, commanding the Western Department, directing that as soon as five thousand guardsmen have been mustered into the Federal service in either department they shall be dispatched to the border.

Secretary Baker tonight telegraphed the state governors asking each how soon the National Guard organizations in his state called out by President Wilson would be ready for muster into the Federal service.

COTTON SEED CRUSHERS AT RALEIGH ENJOY BIG BARBECUE

Association Adjourns After Electing Officers.

(Special Star Telegram.)

Raleigh, N. C., June 22. — The sixth annual session of the North Carolina Association of Cotton Seed Crushers closed here this afternoon, with a big barbecue out at the Caraleigh Mills. Officers for the next year are:

Jonathan Hurms, Washington, president; F. C. Dunn, Kinston, vice-president, and H. A. White, Greenville, secretary and treasurer.

HOMES OF THE FUTURE

Central Kitchen, With Committee to Buy Food and Rule Servants.

(W. L. George, in Harper's Magazine.

I conceive the future homes of the people as separate communities, say blocks of 100 flats or perhaps more, standing in a common garden which will be kept up by the estate.

Each flat will probably have one room for each inhabitant, so as to secure the privacy which is very necessary even to those who no longer believe in the home idea. It will also have a common room where privacy can be dispensed with. Its furniture will be partly personal, but not very, for a movement which is developing in America will entend, and we, too, in England, may be provided, as are today the more fortunate Americans, with an abundance of cupboards and dressers ready fixed to the walls. There will be no kitchens, but one central kitchen, and a central dining room, run—and this is very important—by a committee of tenants.

That committee will appoint and control cooks and all servants; it will buy all provisions, and it will buy them cheaply, for it will purchase by the hundredweight. It will control the central laundry, and a paid laundrymaid will check the lists—there will no longer be, as once upon a time on Saturday evenings, a hundred persons checking a hundred lists. It is even quite possible that the central organization may darn socks.

The servants will no longer be slaves, personally attached to a few persons, their chattel. They will be day-workers, laboring eight hours, without any master save their duty. The whole system of the householder will be grouped for the purpose of buying and distributing everything that is needed at any hour.

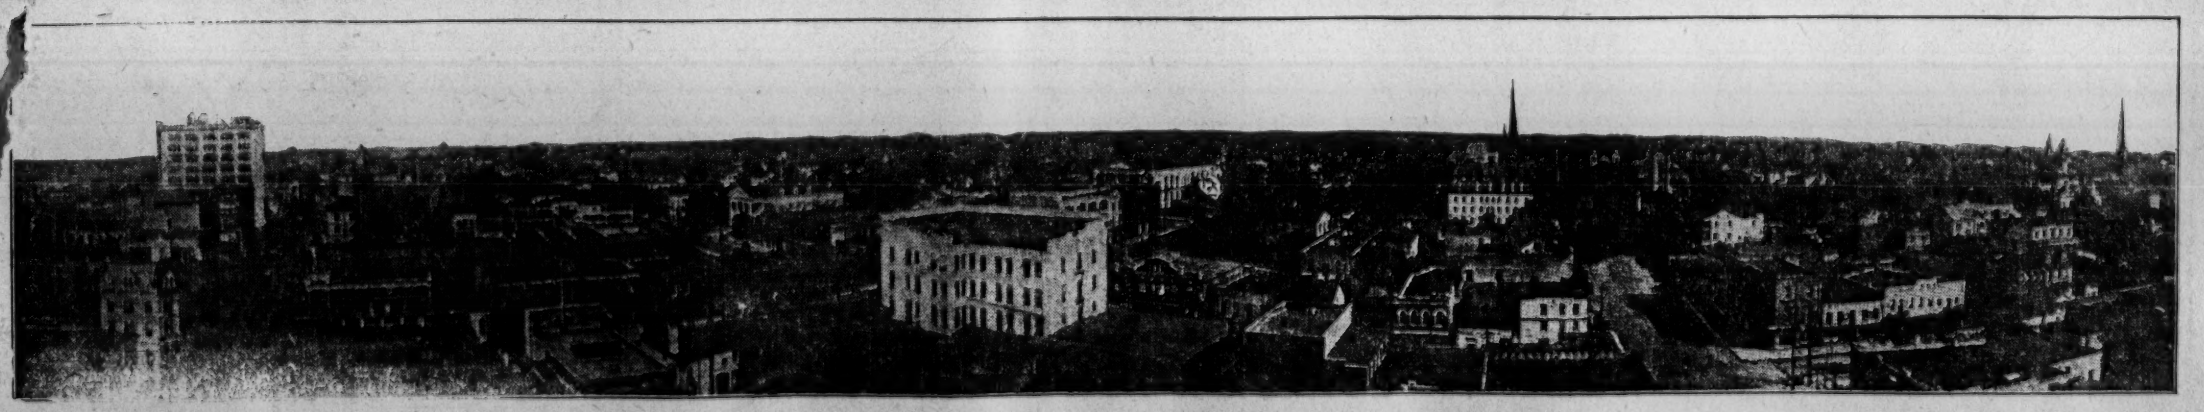
MILKS COWS THRICE DAILY.

Farmer Young Increases His Dairy Output by 25 Per Cent.

(Newton, N. J., Dispatch to N. Y. Sun.)

The daylight savings system, under which imaginative persons think they gain an hour a day by the simple expedient of advancing the clock 60 minutes, has nothing on Farmer Chester Young's cows. Farmer Young, whose dairy is near the tri-state line, has found that by milking his stock three times a day, instead of only twice, he is able to supply many more patrons than formerly.

Thirty-five cows, fortunately not union members, have submitted to the test every day for the last three weeks, two men operating scientific milking machines not only at 4 A. M. and 8 P. M., as formerly, but also at noon. Of course, the stock demands more food than under the old system, but as the milk production in this time has increased between 25 and 33 per cent., Mr. Young figures that he has netted a profit even after paying the bigger bill. And, best of all, the cows seem to enjoy it.



PANORAMIC VIEW OF THE CITY OF WILMINGTON AS SEEN FROM TOP OF MURCHISON BANK BUILDING

AVERAGE PROGRAM OF DAY AT CAMP GLEN

As Furnished by Officers of Second Regiment Company.

Seldom Work More Than Six to Eight Hours, Even on "Bad Days," During Summer Encampments —All by the Clock.

(Special Star Correspondence.)

Kinston, N. C., June 22.—The people of North Carolina will be interested in learning how their sons, brothers and fathers soon to populate Camp Glenn will live as soldiers. Non-commissioned officers of Company B, Second infantry, to reassure their relatives, had published in a local newspaper today an "average programme" of a day in camp.

"In the summertime, say at 5 or 5:30 a. m., 'first call,' begins the programme. First call summons the trumpeters, color guard, quartermaster sergeants, cooks, gun crew, etc. Ten minutes later the revielle, sounded by the 24 trumpeters in unison. Up goes the flag and at the last note off goes the morning gun. In quick succession come fatigue call, for cleaning camp (even cigarette ends have to be buried in the ground with one's heel—that is how hygienic we are); sick call, at the sounding of which each first sergeant reports the sick of his company at the hospital, and mess (breakfast). Eat? Sure, we eat good—potatoes, bacon, beef, soft bread (lightbread), jam—plenty of jam, beans, cabbage, lots of things, and all cooked good.

"Breakfast usually comes at 6 or 6:30. Following that there come drill, recall (from drill), school (for non-commissioned officers), officers' (for officers' school), first sergeants' (for company daily reports) and mess (dinner) calls.

"In the afternoon there are generally drill, first call for retreat (the evening ceremony at sundown—the retreat call has literally no meaning for taking water, for there isn't such a call in the regulations), retreat itself and the Star Spangled Banner or to the color, trumpet equivalent to the national air on days when the weather is too bad to risk the band drums out or there is no band present. On parade days both the call an dthe national air are played in connection with the parade. A dress parade is only when dress uniforms are worn. There hasn't been a dress parade at Camp Glenn in years. Parade and dress parade are identical except for the uniforming.

"After retreat and supper we do nothing much. Call to quarters, tattoo and taps are the night calls. The latter generally does not come until 10 or 11 o'clock. Seldom do we work more than six or eight hours a day even on 'bads days.'"

"That's the hard part of it all," said a local National Guard officer yesterday afternoon after the door to the orderly room in the local armory, where a hundred men are quartered, had been locked to prevent a frantic woman from further disturbing the commanding officer. Five times the woman pushed her way past groups of enlisted men and forced herself into the room. She climbed a flight of stairs, running the gauntlet of curious men. A minor son was enlisted in one of the local commands, she protested to the officers. They tried to reconcile her and convince her that they could do absolutely nothing for her.

BIGGEST PROBLEM AT CAMP GLENN IS FOOD SUPPLY

New Bern, N. C., June 21.—Camp Glenn, near Morehead City, is in readiness for the members of the North Carolina National Guard and the officials of Morehead City have formed a committee to give the officers any needed help in encamping when they arrive.

For the past week a company of sixty Boy and Girl Scouts from Rocky Mount have been camping at the camp. They have been asked to make their departure as quickly as possible and will leave this afternoon.

The Norfolk Southern Railway Company has made all possible arrangements to handle the soldiers over their lines and all the special trains that will be needed in doing this can be secured on short notice.

The biggest problem at present is the feeding of the troops. Mr. Alfred bearing his name, has received orA. Kafer, proprietor of the bakery ders to be in readiness to furnish the men with bread. Mr. Kafer is prepared to furnish the men with several thousand loaves of bread and rolls every day that they are at the camp.

RABBI SOLOMON DELIVERS SIX LECTURES AT SUMMER SCHOOL.

Many Young Ladies and Boys Working Their Way Through.

(Special Star Correspondence.)

Chapel Hill, N. C., June 22.—In inaugurating his series of six lectures before the University Summer School yesterday afternoon, Rabbi George Solomon outlined his plan of discussion for the series. He will treat the tendencies and currents of Jewish thought in the works of Philo, Memonides and Spinoza. All three, he declared, were personifications of the spirit of their age—Philo living in the first century of the Christian era; Memonides in the 12th, and Spinoza in the 17th. Though there is little in common between the three men, yet each is typically Jewish. They were the noblest spirits of their time. Each used some other language than the Hebrew in which to express his thoughts.

Rabbi Solomon will endeavor to show the contribution of these men as Jews to the thought of the world. Though they were alienated from their people, he said, they are really representative Jews after all, for though alienated, they were a part of a long heritage before them. They interpreted Jewish life and thought in the language of the time and for the time.

The democracy of the Summer school is clearly brought out by the fact that between 60 and 70 young ladies act as waitresses in the University dining hall, thus earning their board for the entire six weeks. About 25 boys also find similar employment there. This work is similar to that done in the winter by boys who work their way through. Thus many are enabled to take special studies—many of these girls will teach next year—and better prepare themselves for their work, a thing they could not do unassisted.

The dining hall is crowded to the utmost now, over 600 people being fed there three times a day. Director Walker has had application for over 200 rooms more than he can provide. The total enrollment for the summer school had reached 920 Tuesday night.

NEW WILMINGTON CORPORATION.

Geo. W. Huggins Company and Other Concerns in State Chartered.

(Special Star Correspondence.)

Raleigh, N. C., June 22.—New corporations for North Carolina were chartered today as follows:

The Catawba Fair Association (Inc.), of Hickory, capital $50,000 authorized and $1,000 subscribed for maintaining a county and district fair and the general furtherance of the industrial and commercial interests of that section. The incorporators include J. D. Elliott, W. S. Stroup and others.

The Austin Gin Co., of Raeford, capital $50,000 authorized and $10,000 subscribed for operating cotton gins and cotton seed oil mills, grain mills and a timber and lumber business.

The George W. Huggins Co., Wilmington, capital $50,000 authorized and $15,000 subscribed by Lizzie Huggins, H. A. Huggins and George A. Huggins for a general jewelry business that has been long established there.

The Buffalo Clay Co., of Statesville, capital $50,000 authorized and $10,000 subscribed by E. R. Rankin, E. G. Gaither, and others for manufacturing hollow tile, drain tile and other clay products.

MRS. WILLIAM H. VANN DEAD.

Good Woman of the Cerro Gordo Section Passes Away.

Cerro Gordo, N. C., June 24.—The death of Mrs. William H. Vann, one of the best women of this section, which occurred last Wednesday, caused genuine sorrow in this community and elsewhere, and she will be sadly missed from the community and home.

She was in the 66th year of her age and had been in failing health for several years. The funeral was held Thursday at Piney Forest Baptist church, of which she had been a devoted member since early childhood. Surviving are ten sons and two daughters.

THEATRICAL

"An even break may be expected with Mexico at any moment!" Those were the flaring lines which America read in yesterday afternoon's papers. Perhaps before these words are in print the break will have come America — unprepared—will be in the midst of a conflict which may last for years.

Day before yesterday twenty Americans were victims of the sad state of unpreparedness of the United States, the Mexican outlaws having been better equipped, with machine guns, and outnumbering the American forces two to one!

"The Battle Cry of Peace" predicted all this a year ago. Since then millions have seen it, and it has brought America to a grim realization of the state of affairs, and within the next two years if war can be averted for that long, America will rank with the best of prepared nations of the earth. This, the most powerful propaganda the world has ever witnessed, has been the means of doing more to bring preparedness right to the minds of Americans than all the flowery orators in the halls of Congress; for these same orators first gained their inspiration from "The Battle Cry of Peace."

Running through this great spectacle is a great drama, so real, so vivid, that it will cause a lump to rise in your throat and will bring a tear to your eye.

It will be presented for the last times at the Royal today and tonight, and capacity crowds will undoubtedly be the order of the day.

"Mary Page"—Grand Today.

"The Strange Case of Mary Page" at the Grand today! Another announcement that rings with glad tidings to the many hundreds who can hardly wait from one Friday to another to see this smashing great serial production—the most vital, throbbing and pulsating story ever transformed on the celluloid for the many millions of photoplay fans of the civilized world. And the whole world is seeing it every week, for never in the history of motion pictures has there been so many bookings from different countries as on "The Strange Case of Mary Page."

"Who Killed Dave Pollock?" That is the story that is being threshed out. Mary Page, a beautiful and persecuted girl, is charged with the murder; she doesn't know whether she is guilty or not! Phillip Langdon, rich, influential lawyer, is casting his all on the moves of the gigantic game that is being played; he is fighting the world for the woman he loves. Against him is arraigned a mighty and mysterious clique who are moving heaven and earth to convict and crush Mary Page. If you are not following this great serial, start today! You're missing something worth while!

"The Iron Claw" Today.

"The Iron Claw" at the Bijou today. The thirteenth great chapter of that stirring serial photoplay contains more thrills than were ever injected into a single two-reel section of any serial story. Talk about thrills! Wouldn't you rather see something that besides possessing a great plot, a plot that was constructed by one of America's foremost novelists, Arthur Stringer, and made into a photoplay under the direction of the greatest director in America, starring three of the greatest favorites who ever appeared on the screen?

Well, we had. And "The Iron Claw" exactly strikes our soft spot when it comes to serials. Gives you something to think about—to get your mind off the minor worries of the work-a-day world. And, by the way, have you yet figured out who "The Laughing Mask" is? We want you all to guess right away, for we're going to upset all your "dope" in the sixteenth chapter and we want to see how you look when we say "stung!" Begin today, if you have not yet, and try to figure out who you think it is. Another great Heinie and Louie comedy will be on today—they're almost as popular as "The Iron Claw" and today's is a whopper!

EFFORTS TO FLOAT FISHING BOAT AUSTIN ARE ABANDONED

Found to be Stuck Fast in Blue Clay Bank—Pontoons Useless.

(Special Star Correspondence).

Southport, N. C., June 22.—All efforts have again ceased in trying to raise the fishing smack, Col. Thos. F. Austin, which lies on the bottom, in the Middle Ground. As reported in this correspondence some weeks ago, Capt. R. T. Potter came here from Philadelphia in his wrecking boat, Wild Cat, with two pontoons and chains, etc., prepared to raise the Austin. The work of placing chains under the fishing smack was first attempted, a diver being employed. The quick-sand was found to have washed out and around the sunken boat, and it appeared that it was but a matter of time in getting the chains placed, the pontoons attached, and the Austin would be soon at the marine railway, to be repaired, and again in commission.

But when the bottom was reached, the Austin was found to be resting solidly upon a blue clay bank, through which it was impossible to cut, in order to run the chains under the smack, to these attaching the pontoons. This clay obstacle was unexpected, but it proved the barrier to further work, so that Capt. Potter has taken his pontoons to Wilmington, to be in fresh water, and discontinued all work.

The fishing fleet of the Southport Fish Scrap & Oil Company, are busy with the menhaden catch, bringing in good loads.

The Star's Good Roads souvenir number was full of interest to its local patrons, who are enthusiastic good roads people.

WANT TROOPS AT SNOW HILL

To Guard Will Black, to be Tried in Greene County Court Next Week.

(Special Star Correspondence).

New Bern, N. C., June 22.—Sheriff Williams, of Greene county, passed through New Bern this morning en route to Beaufort where he will appear before Judge W. A. Devin, who is presiding over Superior Court, now in session there, and ask for an order for militiamen to be used in guarding Will Black, colored, who is to be tried at Snow Hill next week on a charge of committing a criminal assault on a little white girl.

Black, it will be remembered, was the direct cause of the lynching of the negro Black, his father, who was taken from the Lenoir county jail a few weeks ago, supposedly by residents of Greene county, and there is evry reason to believe that when he is carried back to stand trial that the same dose will be meted out to him as was given his father.

Sheriff Williams stated this morning that there is a sentiment in Greeene county so great against the negro that he is of the opinion that if the negro is carried back there unguarded, that he will be lynched before he can be placed on trial.

ENTERTAINED GOOD ROADS DELEGATES.

Mr. George P. Galvin, general manager of the Carolina Metal Products Company, who was the genial host at a luncheon served at the plant of his company yesterday at noon to 500 visitors to the North Carolina Good Roads Convention, following a tour of the highways of New Hanover.

FINANCIAL AND COMMERCIAL

COTTON RISES EXCITEDLY

Scare of July Shorts Sends Prices Above Best Level Reached in the Bull Movement in May.

New York, June 22.—There was a very excited and rapid advance in the cotton market here this afternoon on a scare of July shorts with all months selling above the best level reached on the bull movement of last month. July advanced from 12.99 to 13.38 or fully $2 per bale above yesterday's close, and closed at 13.29 with the general list closing steady at a net advance of 28 to 32 points.

Trading was not particularly active early in the day and fluctuations were more or less irregular. The opening was steady at an advance of four to nine points, but there was quite a good deal of scattered realizing. There was also some selling on a private report indicating that the area planted this spring would amount to a 12.58 per cent. increase over the estimate of the same authority last year. Offerings were very small taken, however, and prices steadied during the middle of the day. As prices worked up gains became smaler and the demands more active, with the market developing strength during the early afternoon. October sold from 13.13, the early low level, to 13.47 while December advanced from 13.28 to 13.61, with the general list seling about 29 to 41 points net higher. Heavy stop orders were uncovered and after their execution the buying movement subsided somewhat, whil erealizing became more active with last prices showing reactions of several points from the best. A bullish view of the Mexican situation may have contributed to the advance but the main factor was believed to be the feature of small tenders on July contracts and the strength of spots on the revival of export demand.

	Open	High	Low	Close
July	13.05	13.38	12.99	13.29
October	13.20	13.47	13.13	13.41
December	13.38	13.61	13.28	13.57
January	13.34	13.68	13.35	13.65
March	13.57	13.81	13.52	13.80

Spot cotton steady; middling uplands 13.45; sales 3,462 bales.

NEW ORLEANS COTTON.

Strong Upward Movement and Excited Trading in the Market.

New Orleans, June 22.—A strong upwar dmovement and excited trading resulted in the cotton market today from the covering operations of shorts and appeared frightened by the strong position into which July was drifting. The market was steady from the opening with prices at a small advance during most of the morning session, and in the early afternoon bulged sharply, putting the trading months $2 a bale over yesterday's last quotations. Heavy profit-taking followed this rise and the market reacted, closing very steady at a net gain of 28 to 29 points. At the highest July was 37 points up and the new crop months were 41 up.

The revival in the spot demand, the rise of the local spot quotations to 13 cents for middling and weakness in ocean freights, and an increasingly bullish view of the Mexican situation helped to create bullish sentiment. July shorts appeared uneasy over the report that longs in that month would take up cotton on their contracts.

In the early trading prices advanced 4 to 8 points on good cables, but later fell off to about the level of yesterday's close on the forecast of fair weather for the belt.

Closing bid: July 13.06; October 13.22; December 13.38; January 13.48; March 13.66.

Spot cotton steady, 12 points up; sales on the spot 1,928 bales; to arrive 375 bales; middling 13.00.

WHEAT NERVOUS AND LOWER

Assertions of Year's Supply in the British Colonies Has a Depressing Effect on Market.

Chicago, June 22. — Assertions that Canada, Australia, India and Argentina have now on hand more than sufficient wheat to supply British demands for 12 months had a depressing influence today on prices here.

The market closed nervous at the same as yesterday's finish to ¼ lower, with July 1.02⅞ and September at 1.05½.

Corn declined a shade to ⅜@½ net, the outcome in oats varied from ⅜@½ off to ⅛ up, and in provisions there were loses of 7½ to 15.

Closing:

Wheat — July, 1.02⅞; September, 1.05½.

Corn—July, 78⅜; September, 78¾.

Oats—July, 39⅞; September, 39¼.

Pork—July, 24.50; September, 24.00.

Lard—July, 13.07; September, 13.20.

Ribs—July, 13.60; September, 13.67.

Cash grain:

Wheat—No. 2, red, nominal; No. 3, red, 1.00; No. 2, hard, 1.03¼; No. 3, hard, 1.00.

Corn—No. 2, yellow, 76¾@77½. No. 4, yellow, 75; No. 4, white, 75.

STOCKS FURTHER IMPAIRED

Renewal of Heavy Selling Causes Loss in Quoted Values—Metals Again Weakest—Rails Lower.

New York, June 22.—Quoted values experienced further irregular impairment today, heavy selling being renewed in consequence of the more acute status of the Mexican situation. The movement, except for rallies, continued to the end.

Mexicans were less affected as a group than other well known specialties, petroleum losing only 1 5-8 at its worst, with 1 3-4 for Greene Cananea, while American Smelting lost little or no ground and Texas Company made an actual gain.

Metals were again the weakest features, Butte and Superior losing 3 3-4 and American Zinc 2, making a total of 8 points for the latter issue in the two sessions. United States Industrial Alcohol during a severe drive in the last hour lost 7 1-2 points on rumors that it had been decided to postpone an extra dividend.

Shipping shares and some of the leading motors yielded their early gains, most of them showing net declines.

Rock Island was again the most active issue in the railway division, but under realizing lost the greater part of the preceding day's 3 point advance. Union Pacific was almost the sole important railway stock to make actual headway, though falling back at the feverish close. Total sales 585,000 shares.

Bonds were irregular. Total sales, par value, $3,370,000. United States 4s advanced 3-4, and Panama 3s 1 per cent on call.

UNITED STATES ONLY TO DEFEND TERRITORY

War With Mexico Would be For No Other Purpose.

Secretary Lansing Sends Memorandum to Diplomatic Representatives of South and Central American Nations.

Washington, June 22—Secretary Lansing today sent a memorandum to the diplomatic representatives of South and Central American nations reviewing the situation between the United States and Mexico and announcing if hostilities should eventuate the purpose of the United States would be to defend itself against further invasion and not intervene in Mexican affairs. The note, dated June 21, follows:

"I enclose for your information a copy of this government's note of June 20 to the secretary of foreign relations of the de facto government of Mexico on the subject of the presence of American troops in Mexican territory. This communication states clearly the critical relations existing between this government and the de facto government of Mexico and the causes which led up to the present situation.

"Should this situation eventuate into hostilities, which this government would deeply regret and will use every honorable effort to avoid, I take this opportunity to inform you that this government would have for its object, not intervention in Mexican affairs with all the regrettable consequences which might result from such a policy, but the defense of American territory from further invasion by bands of armed Mexicans, protection of American citizens and property along the boundary from outrages committed by such bandits, and the prevention of future depredations by force of arms against the marauders infesting this region and against a government which is encouraging and aiding them in their activities.

"Hostilities, in short, would be simply a state of international war without purpose on the part of the United States other than to end the conditions which menace our national peace and the safety of our citizens."

PREPARATIONS AT THE WAR DEPARTMENT FOR CONFLICT GO FORWARD

(Continued from Page One.)

lieved to be yielding to the European influences to avoid war.

Carranza May Seek Settlement.

The Carranza cabinet which studied the American note, was reported to have found in it basis for further diplomatic exchanges. This was construed by some Mexico City diplomats to mean that General Carranza would seek a settlement of the situation without carrying out his threat to attack General Pershing's men. His note in regard to the Carrizal incident is viewed as supporting this theory.

A message today told of the display of posters about the Mexican capital announcing the killing of General Gomez at Carrizal. Officials admitted this was not a hopeful sign.

Mr. Rodgers also reported that through arrangement with the Carranza government 400 American citizens would leave Mexico City for Vera Cruz by special train tomorrow, following the 200 who left in safety yesterday and are now aboard the battleship Nebraska. Mr. Rodgers' last estimate of Americans in the capital and vicinity was 600.

Draft Guard Indefinitely.

A resolution was introduced in the House today by Chairman Hay, of the military committee, to be called up for action tomorrow, authorizing the President to draft into the Federal service all members of the guard who take the new enlistment oath, and to hold them for the duration of the emergency for which they are called out. The words "duration of the war" were altered after a difference between Secretary Baker and Mr. Hay. The resolution provided that incomplete units of the guard may be consolidated and mustered in.

Chairman Hay also plans to introduce a measure creating a fund of $500,000 to be used for the relief of the indigent families of the National Guardsmen called into active service. A maximum of $50 a month for any one family would be authorized.

Secretary Baker was in conference during the day with President Wilson. It was reported that the possibility of calling out volunteers in addition to the National Guard should war with Mexico come, was discussed.

Army officers pointed out that authorization to call volunteers would permit the application of the system used during the Spanish war to recruit regular regiments up to war strength. Enlistment was accepted for the term of war, making it possible for a citizen to volunteer for service with the regulars binding himself for the long time of regular army enlistments.

With the 11 additional skeleton regiments to be created on the border July 1, it is deemed vital that some method of filling up their ranks as well as the old organizations be provided if war is impending.

Virtually Under Marching Orders.

The National Guard of three states, California, Kansas and Missouri, virtually was under marching orders tonight. The force totals at least 10,000 men, including three brigades of infantry, seven troops of cavalry, seven batteries of field artillery, three companies of signal corps troops and ambulance companies and field hospital corps. Commanders of the Central and Western Departments were directed to send the guardsmen, as soon as they have been mustered, to points on the border to be designated by General Funston. The troops of these states were selected because they are the most efficient organizations of considerable strength which can reach quickly the points where General Funston has indicated they are most urgently needed.

Army officials are well satisfied so far with the way the mobilization is progressing, but also believes it falls short of what it might be in case of war when first line troops would be needed.

Could Easily Blockade Mexico.

With the sending of navy ships to virtually every Mexican port, ready to take off American refugees another weapon will have been placed in President Wilson's hands for use in case war does come. The ships will be so disposed that a blockade of Mexico by sea could be set up at a moment's notice, should need arise.

Twenty vessels of the coast guard service are being made ready for possible use as auxiliaries. Mobilization of the National militia to man reserve ships and fill out complemanis of the battle fleet withdrawn for the present emergency, would furnish the means of filling in gaps in the patrol line, probably without breaking up the fleet organization. The fleet itself could move on any port it might be thought expedient to take.

Congress so far has avoided prolonged discussion of the Me ican crisis.

Brief attention was given it in the Senate today, however, when Senator Works, Republican, of California, had the clerk read his long pending resolution to authorize intervention and gave notice that unless the Foreign Relations committee brought in a report soon he would seek to bring a vote on the floor.

FUNSTON IS AWAITING THE REPORT FROM GEN. PERSHING

San Antonio, Texas, June 22.—While General Funston awaited a report today from General Pershing that would bear out the American version of the Carrizal fight, he and his staff worked at high pressure perfecting military details. Two reports from General Pershing came during the day but when they were sent no survivor of the detachment that faced the machine gun fire of the Mexican troops had returned to the American lines .General Funston said again today that until the American version had been received officially no orders would be given the border commanders and then not unless the facts established beyond doubt that the Mexicans had been the aggressors.

KILLS AMERICAN SOLDIER AND WOUNDS FIVE OTHERS

Half-Breed Mexican Watchman Exonerated of Murder Charge.

Naco, Ariz., June 22.—William Humphrey, a half-breed Mexican employed as a watchman at the Naco water plant, was exonerated of criminal blame today by a coroner's jury, for killing early today one United States soldier and wounding five others, one seriously. Humphrey testified that he could not see the uniforms of the infantrymen and had believed them to be bandits.

The soldiers were fired upon by the watchman as they approached the water plant at 2 A. M. preparatory to changing the guard there. Before they could make known their identity the following casualties had resulted:

Walter E. Powell, private, was shot through the chest and abdomen. He lived one hour.

John G. Rogoya, private, shot through the neck, right shoulder and right arm, right thigh, condition serious.

R. N. Martin, first sergeant, flesh wounds on back and shoulders, not serious.

Harry Pittson, sergeant, wounded in muscles of right shoulder.

Victor Lundmark, corporal, wounded in right elbow.

William H. Stevenson, private, flesh wound over right hip.

All of the soldiers were members of company F, 14th United States infantry, Dr. E. S. Haines, first lieutenant of the company, who attended the infantrymen, stated he feared Private Rogoya's spine had been injured, as his right arm was paralyzed.

MANY REFUGEES ARRIVING AT VERA CRUZ FROM INTERIOR

Vera Cruz, June 22.—Two train loads of Americans and British are expected here tonight. The United States battleship Nebraska has room for very few more refugees.

Vera Cruz remains tranquil. Mammoth demonstrations are being held throughout Mexico, at which assurances are being given the first chief that the Mexican nation has full faith in him and his actions. There has been no demonstration here, however.

W. W. Canada, the American consul, is still at his post awaiting the arrival here of Americans from the interior. There are no vessels in the harbor. A Spanish liner and the American steamer Monterey are expected here Saturday.

ARMY ARTILLERY EXPERTS.

Big 16-Inch Gun They Have Developed Is a Wonder.

(From the Washington Star.)

The placing of a giant of guns of 14-inch and 16-inch calibres in all the principal fortifications of the United States is one of the defensive improvements contemplated by the artillery experts of the army. That action is made necessary by the development and use of higher calibred guns by other nations, notably in the European navies, where guns of the 15-inch type are now being placed on the battleships of the latest types, of which the famous Queen Elizabeth, of the British navy, is an example.

At the present time the largest gun in any of the coast fortifications of the United States proper are of the 12-inch type. There is one 16-inch gun at Panama, and 14-inch guns have been authorized for Manila Bay. The new 14-inch gun fires a projectile weighing about 1,000 pounds and uses a powder charge of about 430 pounds.

But it is the big 16-inch gun which the ordance officers have developed that is the real wonder of the service. A second gun of that type will be under test by the end of the present year. It is 50 feet long, weighs about 285,000 pounds, and fires a projectile weighing 2,400 pounds, with a charge of 640 pounds of smokeless powder. The projectile is about 5½ feet long. The gun cost $150,000.

In line with the proposition to increase the arament of the coast defenses by the addition of guns of the 14 and 16-inch types is the proposition to add siege artillery units to the permanent organization of the field artillery arm of the regular army. One of the problems being studied by the artillery is how to make the great 12-inch mortars that form so important a part in the scheme of defense, mobile, making possible their quick transportation from one place to another in the event of trouble.

JOSEPH M. VAUGHN DEAD

Was Father of Prominent Greensboro Banker, R. G. Vaughn.

(Special Star Telegram).

Greensboro, N. C., June 22.—Joseph M. Vaughn died at his home in Madison today, aged 83 years. He was the father of President R. G. Vaughn, of the American Exchange National Bank, of this city.

TWELVE STATES HAVE NO MILITIA IN CAMP

Reports Show That Majority of These Are in the South.

In Many Cases Troops are Being Held at Home Stations to Stimulate Recruiting to Bring Commands to War Strength.

New York, June 22.—Reports today from adjutants of the National Guard to Col. Chas. Noyes, chief mystering officer of the Department of the East, showed that of 21 states and the District of Columbia, in the division, 12 had no men in camp. The majority of these 12 states are in the South, and in many cases the militia is being held at home stations to stimulate recruiting in an effort to bring the commands up to war strength.

Figures compiled here show that organizations of the National Guard in the last order to mobilize would make a total of 128,698 officers and men if brougbt up to full war strength:

Alabama 6,997; Connecticut 5,186; Delaware 1,232; District of Columbia 3,060; Florida 1,860; Georgia 6,680; Kentucky 5,801; Maine 1,860; Maryland 5,997; Massachusetts 9,782; Mississippi 5,580; New Hampshire 2,206; New Jersey 6,544; New York 22,760; North Carolina 5,926; Pennsylvania 19,926; Rhole Island 651; South Carolina 3,820; Tennessee 3,797; Vermont 2,261; Virginia 4,966; Wets Virginia 1,860.

None of the commands called upon in the various states is believed to be below the minimum strength, and many of them are rapidly increasing to war strength.

General Wood tonight sent to Washington a summary of the mobilization in various states which included the following:

Virginia—Troops held at home stations, reports indicate all at peace strength, many nearing war strength.

South Carolina—Companies recruiting at rendezvous. One company in camp for labor purposes, strength 93. Present aggregating first infantry, 899 second infantry 919, troop A 68.

North Carolina—No troops in camp.

LIEUTENANT AND CAPTAIN KILLED

(Continued from Page One.)

that after General Gomez had retired to his troops, who were lined up outside the town, Captain Boyd ordered his men to advance, whereupon Spillsbury expostulated with him, arguing that a fight was sure to follow. Spillsbury is reported as saying that Captain Boyd "obstinately seemed to think that the Mexican general was bluffing" and the fight quickly began. He is quoted further:

"Captain Moore and Lieutenant Adair fell mortally wounded. Captain Moore was wounded in the shoulder, and immediately the negroes became demoralized. At the same time the men holding the horses fled with the mounts, leaving behind 17 negroes and myself. We were forced to surrender.

"I saw the bodies of Boyd and Adair and at least 11 negroes on the field of battle."

TEUTONS ARE NOW ON THE OFFENSIVE

(Continued From Page One.)

planes were brought down by the French, who, in turn, lost one machine, through motor trouble.

No important changes in the situation on the Austro-Italian theatre or in Asiatic Turkey, have been reported.

The ultimatum of the Entente powers in Greece has been yielded to by the Hellenic kingdom. The Greek cabinet has already resigned, and another is in process of formation.

ORPET BOWS HIS HEAD AS OLD LOVE LETTERS ARE READ

Undergoes Most Trying Ordeal in Trial for Murder of Sweetheart.

Waukegan, Ill., June 22.—William Orpet, charged with the murder of his former sweetheart, Marion Lambert, underwent the most trying ordeal of his trial today when Attorney David R. Joslyn, assisting in the prosecution, read 22 of his love letters to Marion. The 22 remaining ones will be read tomorrow, after which the state will rest its case.

During the reading of his letters Orpet sat with his head bowed and one hand shading his eyes from all observers, even those who sat closest to him.

INFANTRYMEN LAST NIGHT RUSHED TO RIO GRANDE CITY.

Mission, Texas, June 22.—Nine officers and 286 men of the 28th infantry, stationed here for the last six months, tonight were rushed to Fort Ringgold, at Rio Grande City, following receipt of reports that Mexican bandits were threatening that town tonight. A machine gun company accompanied the infantrymen.

Life Insurance and A Bank Book

The American Bank and Trust Company looks with especial favor on the account of the man who has his life well insured. It bespeaks not only foresight and judgment, but also increases the stability of his financial position.

Men are prone to delay this important matter. The first premium is often a seeming obstacle. A special savings account at this bank for the purpose of accumulating premiums will remove the difficulties. Life Insurance in good companies will be a constant and growing asset. Periodical deposits in your savings account will provide your premiums without heavy drains on your income at one time.

"Custom" Window Screen Frames

This frame is made heavy and substantial, from selected white pine or basswood. Size of sticks, ¾x1¾ inches. The side pieces are grooved in the outer edges. Slide-sticks for fastening to the window casings are furnished; also raised mouldings for covering the edge of the wire cloth; and all necessary nails, corner irons and lifts.

The construction is very simple and the frame is easily put together, and when made up looks like a regular custom or made to order screen. Directions with each one.

	Wide	High
No. 3642 Basswood		Size 36x42 in.
No. 3648 Basswood		Size 36x48 in.
